FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The devices have been evaluated to meet general RF exposure requirement.
The devices can be used in portable exposure condition without restriction.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 5 mm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

PACKAGE CONTENTS

PRODUCT DESCRIPTION

① **Magnetic Wireless Charging Zone:** Compatible with iPhone 12/13 series or Magsafe cases. Supports 15W fast charging for iPhone 13 series.

② **Power Button:** Short press to power on. Double press to power off. Long press to activate/deactivate the reverse wireless charging function.

③ **USB-C Input/Output:** Supports USB-C PD fast charging input. Charging time approx. half that of a standard charger.

④ **Battery LED Indicator**

LED INDICATOR GUIDE

Charging Status

- Flashing: When the battery is low, it flashes twice every 5 seconds to remind you to charge promptly. When the battery is fully charged, it will automatically turn off.

Reverse Charging Status

- Steady Red: Indicates 1-25% remaining battery level. When 25% is reached, the indicator flashes 3 times and turns off. Charging stops.
- Steady Yellow: Indicates 26%-50% remaining battery level.
- Steady Green: Indicates 51%-75% remaining battery level.
- Steady Blue: Indicates 76%-100% remaining battery level.

Note: When the battery level is low, charging will automatically stop after 20 minutes, and the reverse charge function will be disabled.

COMPATIBILITY

Magnetic Wireless Charging for iPhone
Compatible with iPhone 12/13 series and Magsafe cases.

Magnetic Wireless Charging
Compatible with Magnetic Wireless Rechargeable Gel Clip pads, ensure 15W/10W wireless charging compatibility.

Note:
Only the Switch series clip is compatible with Switch Switch 2 OLED, while the Switch 2 Switch Mini is only compatible with Switch.

SWITCH MAGNETIC CHARGING CLIP SET

① Align the clip with the protruding protrusion of a mobile phone. Once you hear a click, the clip is securely attached to the phone.

② Pressing the protruding protrusion will release the clip. Alternatively, disassemble by prying the clip with a small tool or fingernail.

③ Connect the magnetic charging cable to the Type-C port on the reverse charging pad. Ensuring the cable's orientation matches the pad's design ensures optimal charging efficiency.

④ Connect the other end of the cable to a power source. Charging will commence automatically. Refer to the LED indicator guide for charging status.

SWITCH 2 MAGNETIC CHARGING CLIP SET

① Align the clip with the protruding protrusion of a mobile phone. Once you hear a click, the clip is securely attached to the phone.

② Pressing the protruding protrusion will release the clip. Alternatively, disassemble by prying the clip with a small tool or fingernail.

③ Connect the magnetic charging cable to the Type-C port on the reverse charging pad. Ensuring the cable's orientation matches the pad's design ensures optimal charging efficiency.

④ Connect the other end of the cable to a power source. Charging will commence automatically. Refer to the LED indicator guide for charging status.

SPECIFICATIONS

Battery Capacity	10000 mAh (Rated capacity: 9500 mAh)
USB Output	5V=2.4A/9V=2.2A/12V=1.5A
USB-C Output	5V=3A/9V=3A/12V=3A/15V=3A/20V=3A
Wireless Charging Power	15W/10W/7.5W/5W/2.5W
Wired Charging Power	20W MAX
Product Size/Weight	6.87*3.07*0.86inch/ 214.4±5%g

PACKUNGSINHALT

PRODUKTBESCHREIBUNG

① **Magnetische kabellose Ladezone:** Kompatibel mit iPhone 12/13 Serie und Magsafe-Hüllen. Unterstützt 15W Schnellladung für iPhone 13 Serie. Ladezeit etwa halbe Standzeit.

② **Ein/Aus-Schalter:** Kurz drücken zum Einschalten. Doppelt drücken zum Ausschalten. Lang drücken zum Aktivieren/Deaktivieren der umgekehrten kabellosen Ladefunktion.

③ **USB-C Ein/Ausgang:** Unterstützt USB-C Schnellladung mit max. 20W. Lädt mit Standard-Ladegerät etwa halbe Ladezeit.

④ **Batterie-LED-Anzeige**

LED-ANZEIGEANLEITUNG

Ladestatus

- Blinken: Blinkt 2x alle 5 Sekunden zur Erinnerung, rechtzeitig zu laden. Nach vollständiger Ladung schaltet sich die LED automatisch aus.

Umkehrladestatus

- Rot dauerhaft: Indicates 1-25% remaining battery level. When 25% is reached, the indicator flashes 3 times and turns off. Charging stops.
- Gelb dauerhaft: Indicates 26%-50% remaining battery level.
- Grün dauerhaft: Indicates 51%-75% remaining battery level.
- Blau dauerhaft: Indicates 76%-100% remaining battery level.

Hinweis: Wenn der Akkustand niedrig ist, wird das Laden nach 20 Minuten automatisch gestoppt, und die umkehrbare Ladefunktion wird deaktiviert.

KOMPATIBILITÄT

Magnetische kabellosen Ladeadapter für iPhone
Kompatibel mit iPhone 12/13 Serie und Magsafe-Hüllen.

Magnetische kabellose Ladung
Kompatibel mit Magnetischer Wireless Rechargeable Gel Clip Pads, sowie Unterstützung für 15W/10W wireless charging.

Hinweis:
Nur Switch Serie Clip ist kompatibel mit Switch Switch OLED, während der Switch 2 Mini Clip nur mit Switch Kompatibel ist.

SWITCH MAGNETISCHER LADECLIP-SATZ

① Richten Sie den Magnetvorsprung auf das Telefon. Ein Klick bedeutet, dass der Clip sicher an Ihrem Telefon befestigt ist.

② Drücken Sie den Magnetvorsprung, um den Clip zu lösen. Alternativ können Sie den Clip mit einem kleinen Werkzeug oder Ihren Fingern abhebeln.

③ Verbinden Sie das magnetische Ladekabel mit dem Type-C-Anschluss des reverse charging pad. Die korrekte Ausrichtung des Kabels gewährleistet optimale Ladeeffizienz.

④ Verbinden Sie das andere Ende des Kabels mit einer Stromquelle. Der Ladevorgang beginnt automatisch. Beachten Sie die LED-Ladeanzeige für den Ladestatus.

SWITCH 2 MAGNETISCHER LADECLIP-SATZ

① Richten Sie den Magnetvorsprung auf das Telefon. Ein Klick bedeutet, dass der Clip sicher an Ihrem Telefon befestigt ist.

② Drücken Sie den Magnetvorsprung, um den Clip zu lösen. Alternativ können Sie den Clip mit einem kleinen Werkzeug oder Ihren Fingern abhebeln.

③ Verbinden Sie das magnetische Ladekabel mit dem Type-C-Anschluss des reverse charging pad. Die korrekte Ausrichtung des Kabels gewährleistet optimale Ladeeffizienz.

④ Verbinden Sie das andere Ende des Kabels mit einer Stromquelle. Der Ladevorgang beginnt automatisch. Beachten Sie die LED-Ladeanzeige für den Ladestatus.
