The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
The device has been evaluated to meet general RF exposure requirement. The distance between the user and antenna should be no less than 20mm.

I REMOTE CONTROL CAR I

ENGINEERING EXCAVATOR

Functional Introduction:

1. Push forward and the car moves forward.
2. Push backward and the car moves backward.
3. Push to the left and the car rotates to the left.
4. Push to the right and the car rotates to the right.
5. Control the car to rotate quickly to the left.
6. Control the car to rotate quickly to the right.
7. Control the swing arm to hook.
8. Control the swing arm to open outward.
9. Control the sound playing.
10. Control enter the Mute Mode.
11. The tower can rotate 360 degrees manually.
12. Automatic demonstration (AUTO-DEMO.)
13. Support multiple interactive competitions of the same model.

Specification:

Full function Radio Controlled
Frequency:2.4G
Authentic scale model

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
