

Run Orb

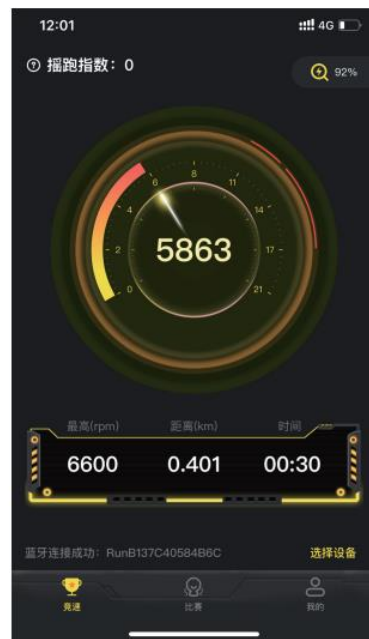

User Manual

DEAR CUSTOMER

Thank you for purchasing Younful Run Orb. For optimum performance and safety, please read these instructions carefully before connecting, operating or using this product. Please keep this manual for future reference.

Bluetooth Connection

1. Please search and download the “RunOrb” APP in Google Play, Android Market or App Store, or just scan the QR code at the bottom of the ball.

2. Turn on your phone bluetooth and open the APP, select device and connect the ball.(The Bluetooth serial number starts with “RunB ”)

Select device

Please slide the ball in the direction of the arrow about 3 rounds and shake it until the bluetooth indicator flashes

No device found...

Please keep the core of the ball
shaking or running slightly

NOTE: Please keep the ball

core rotating to wake up the Bluetooth on the ball.

Operation

Step 1. Push the ball core in the direction of the arrow to the maximum with the

thumbs of both hands.

Step 2. One of your thumb hold the ball core to prevent it rebound and the other hand hold the ball, insert the index finger, middle finger and ring finger into the finger holes of the silicone sleeve.

Step 3. Move your thumb away to release the rotor, rotate your wrist in a circular motion to start the Run Orb, and speed up gradually.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
