Product name: Smart Bird Feeder

Model number: PCD00 I

Main Materials: PC+ABS, metal parts

Seed capacity: 720ml

Mounting: Wall/Tree Mount

Camera: 1080P HD

Field of view: 135 degrees

Audio: Microphone

Voltage: 5V

Battery capacity: 5200mAh

Charging time: About 8 hours

Charging: USB-C charging cable

Connectivity: 802.11 B/G/N Wi-Fi connection

Operating Temperature: 5°F to 120°F

Manufacturer: Pengchuangda (Shenzhen) Industry Co., Ltd.

Address: No. 14-1 Tongqing Road, Tongxin Community,
Baolong Street, Longgang District, Shenzhen City, Guangdong,
China

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or change to this equipment. Such modifications or change could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
