| <p>EUT View 3</p> |  A photograph of a blue electronic device, likely a USB dongle or a small circuit board, lying horizontally on a light blue textured surface. A wooden ruler is placed vertically to the left of the device, showing measurements from 1 to 32 cm. Another wooden ruler is placed horizontally below the device, showing measurements from 1 to 44 cm. The device has a rectangular shape with rounded ends. It features a USB-A connector on the left side, a small square component in the center, and a USB-B connector on the right side. There are several small circular holes and markings on the surface. |
| <p>EUT View 4</p> |  A photograph showing the side profile of the same blue electronic device. It is lying horizontally on the same light blue textured surface. A wooden ruler is placed vertically to the left, showing measurements from 1 to 32 cm. Another wooden ruler is placed horizontally below, showing measurements from 1 to 46 cm. The device appears as a thin, blue rectangular object with a slight curve at the ends.                                                                                                                                                                                              |
