Solder Board-Component View 2	 A photograph showing the underside of a green printed circuit board (PCB) with various electronic components. The board is placed on a black surface with a white ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The PCB features a large circular component with a yellow ring and a black center, labeled 'KROG SYSTEMS' and 'P/N: KROG001'. Other components include a small black chip, several resistors, and a small white component. The board is oriented vertically.
Antenna View	BT Antenna  A photograph showing the top side of the green PCB. The board is oriented horizontally. A red line points from a label 'BT Antenna' to a small, circular, black component on the board. The component is surrounded by a yellow ring. The board also features a large circular component with a yellow ring and a black center, labeled 'KROG SYSTEMS' and 'P/N: KROG001'. Other components include a small black chip, several resistors, and a small white component. The board is oriented horizontally.
