Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

To Whom It May Concern,

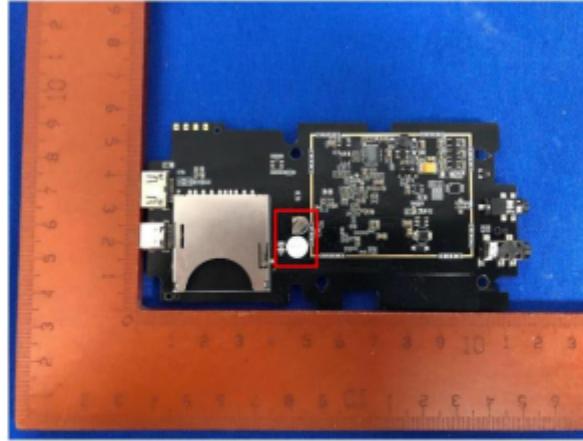

Original FCC ID: **2A3U8-DC130**; Model Number: **DC130**
New FCC ID: **2A3U8-DC133**; Model Number: **DC133**

This is to advise and officially, that we, **Shen Zhen Lian Zhong Xin Electronic Co., Ltd.** hereby request a change in identification of equipment pursuant to § 2.933.

Pursuant to §2.1043, we, would like to modify the authorized equipment(FCC ID: 2A3U8-DC130, original grant date: 04/09/2024) during the change in identification application with below change:

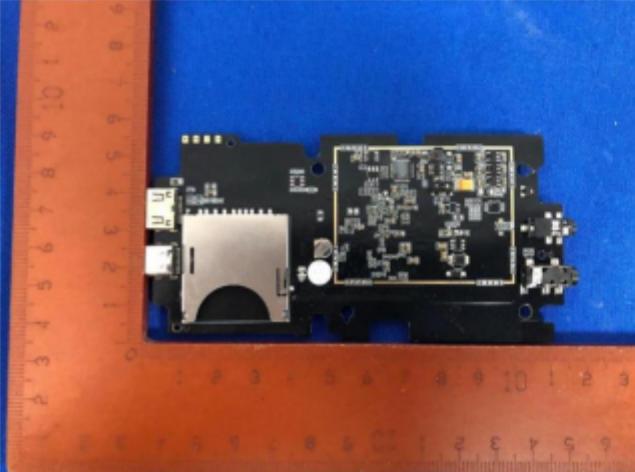

1. Change ID and model number;
2. The old board capacitor is welded larger, and the new board capacitor is pasted;

Details as bellows

Shen Zhen Lian Zhong Xin Electronic Co., Ltd.

Room 615, Block A, Zhihui Innovation Center, Taoyuanju South, NO.2 Qianjin Road, BaoAn District, Shenzhen China

Original Top	 A photograph of the original top PCB of a device. It is a black printed circuit board with various electronic components, including a central chip and several capacitors. It is placed next to a blue ruler for scale, showing measurements from 0 to 10 centimeters.
New Top	 A photograph of the new top PCB of a device. It is a black printed circuit board with a similar layout to the original, featuring a central chip and capacitors. The new PCB appears to have a slightly different component arrangement or soldering. It is placed next to an orange ruler for scale, showing measurements from 0 to 10 centimeters.

I attest that such change will not affect 2.4GWIFI Radio section from antenna port (after pre-check, conducted power no higher than original), only effect (AC Power line conducted emissions, Radiated Emissions section of 2.4GWIFI) .

If you have any query, please feel free to contact me.

Sincerely,

Guangfei Huang
