

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device. The top half shows the grey plastic housing with various mounting points and a central white component. The bottom half shows the green printed circuit board (PCB) with a yellow battery, various electronic components, and a coiled antenna. A black ruler with white markings is placed horizontally below the components for scale.
Solder Board-Component View 1	 A close-up photograph of the green PCB assembly. It shows various electronic components including resistors, capacitors, and integrated circuits. A coiled antenna is visible on the right side. A black ruler with white markings is placed horizontally below the assembly for scale.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled '2', resting on a blue textured surface. The component is irregularly shaped with a central circular cutout and various electronic components soldered onto it, including a small black square component and several surface-mount components. A black L-shaped ruler is placed next to the component for scale, with markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph of a cylindrical yellow component, labeled '3', resting on a blue textured surface. The component has the brand name 'HONGLI' printed on it. A black L-shaped ruler is placed next to the component for scale, with markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
