

FCC RECOMMENDATIONS

Since the application uses FCC certified OEM modules, the Raspberry PI 4 Board (**2ABCB-RPI4B**) and the Embit EMB-LR1302-mpcie Module (**Z7HEMBLR1302**), accordingly to the modular approval process and the KBD 996369 document, the host product has to respect:

- the OEM manufacturers prescriptions;
- the RF-exposure restrictions recommended by the OEM manufactures;
- the eventually RF co-location prescriptions listed into the OEM manufactures manuals;
- the usage of specific antennas listed into the OEM Manufacturers manuals.
