

wireless charger desk lamp User Manual

*Please read the instruction manual carefully before using the product and keep it with proper care.

1. Product Introduction

This LED desk lamp has a built-in wireless charger (support 10W Max). You can freely adjust 3 light colors and brightness. The memory function can automatically return to the brightness and color mode you set last time. The flexible gooseneck makes it compact and portable. Its base takes up very little space and provides good light without blue light and visual strobes.

2. Product Features

- ① Pen Holder
- ② Phone Stand
- ③ 3 Color Modes
- ④ Wireless Charger
- ⑤ Touch Control
- ⑥ Stepless Dimming
- ⑦ Compact and Potable
- ⑧ Large Luminous Surface
- ⑨ Brightness Memory Function
- ⑩ No Blue Light Hazard/ No Visible Strobing

3. Product Parameters

Name	wireless charger desk lamp
Model No	CP-TD-FX-E-001
Color	White/Black/Pink/Blue
Material	Plastic
Light source	LED
Luminous flux	800LM
Rated power	8W
Adjustable Angle	360°
Wireless Charger	10W Max
Number of LED lamp beads	56 pcs
Adapter input	100-240V AC 50/60Hz
Desk lamp input	5V 3A
Interface type	DC 5.5
Color temperature	3000K/4000K/5000K
Product Dimension	6.29" x 5.1" x 21.65"

* The above data are measured by laboratory, the actual use will be slightly different depending on the specific circumstances.

4. Installation Instructions

- Open the package, take out the desk lamp, and place it on the desktop steadily.
- Insert the power cord of the adapter into the power input interface of the lamp body and connect to the power.

- The lamp cannot be placed in an unstable place. (Cannot be used on slopes over 6°)
- Lamps must not be connected in series with other electrical appliances and cannot be used in parallel with a dimmer.
- When inspecting and maintaining lamps, please ask electrical professionals for help. Maintenance by non-professionals is prone to danger.
- When an abnormal phenomenon occurs the lamp, cut off the power quickly and contact the retail store. (The product model should be provided during maintenance, refer to the model on the lamp body)
- If the external flexible cable or cord of this lamp is damaged, the cable should be replaced by the manufacturer or service agent or a qualified person to avoid danger.

* **Notice:** the light source in this lamp cannot be replaced by users. It needs to be replaced by the manufacturer or service agent or a qualified person.

9. Lamp maintenance and repair

Warning: before maintaining and repairing the lamp, the power supply must be cut off to prevent electric shock.

To use this product safely and efficiently, please clean and inspect it regularly (once every six months). When cleaning the lamp, please cut off the power first, and use a soft dry cloth dipped in soapy water to wipe it. Do not use other reagents to clean, that will cause discoloration or damage to the lamp.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
