

Product Manual

Product parameters:

Material	Silicone+ABS
Weight	14g
Size	62*36.5*15mm
Battery	3V button battery: CR2032

①Vibration key

②Telescopic vibration key

③Battery cover

Instructions for use:

1. Short press the vibration button to control the vibration motor of the product to start working, short press again to shift, 10 frequency cycles, and then long press for 1.5 seconds to stop the vibration
2. Short press the telescopic vibration button to control the telescopic vibration motor of the product to start working, short press again to shift, 10 frequency cycles, and then long press for 1.5 seconds to stop the telescopic vibration

2. Product Maintenance:

3. Dry before storage and avoid exposure to the sun.
4. 2. The product should be stored in a dust-free place, away from other materials.

Precautions:

1. This product is an adult toy, and it is prohibited for minors to use it.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
