| <p>Solder Board-Component View 8</p> |  A photograph showing a small green printed circuit board (PCB) component mounted on a blue perforated metal surface. The component has several gold-colored solder points and a small integrated circuit. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom. The component is positioned between the 10 mm and 40 mm marks on the ruler. |
| <p>Solder Board-Component View 9</p> |  A photograph showing a cylindrical battery component mounted on a blue perforated metal surface. The battery is white with green and black markings. The markings include "SAFT", "LS", "17500", "3.6V", and "Li-SOCl2". A black ruler with white markings is placed below the battery for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom. The battery is positioned between the 10 mm and 40 mm marks on the ruler. |
