

## Test Positions

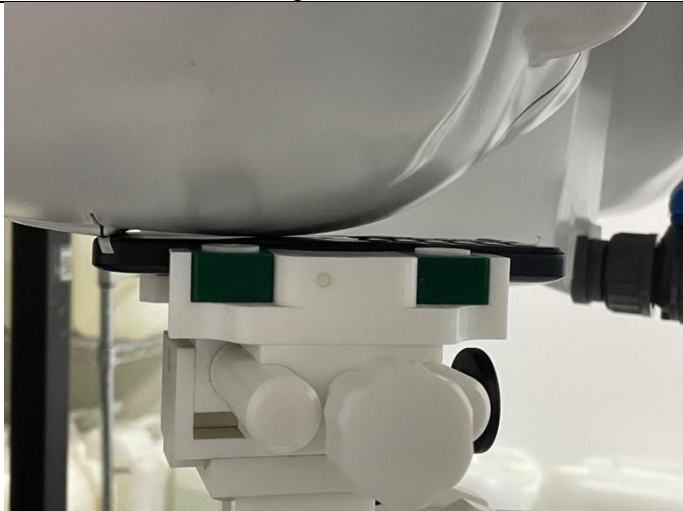

Left Cheek

Left Tilt 15 Degree

Right Cheek

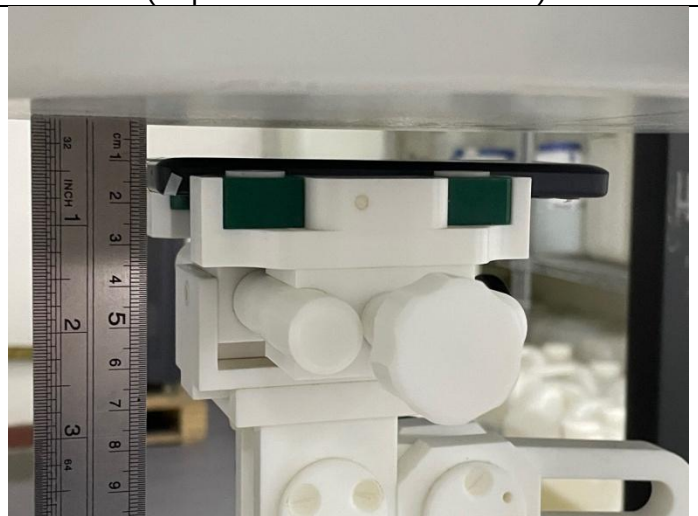

Right Tilt 15 Degree

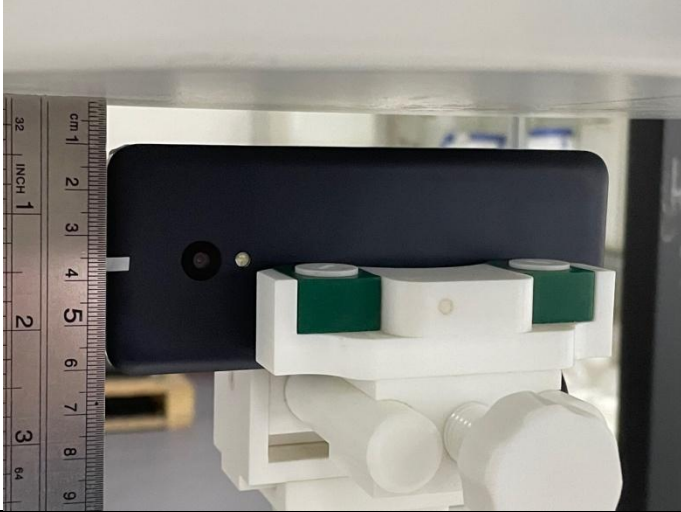

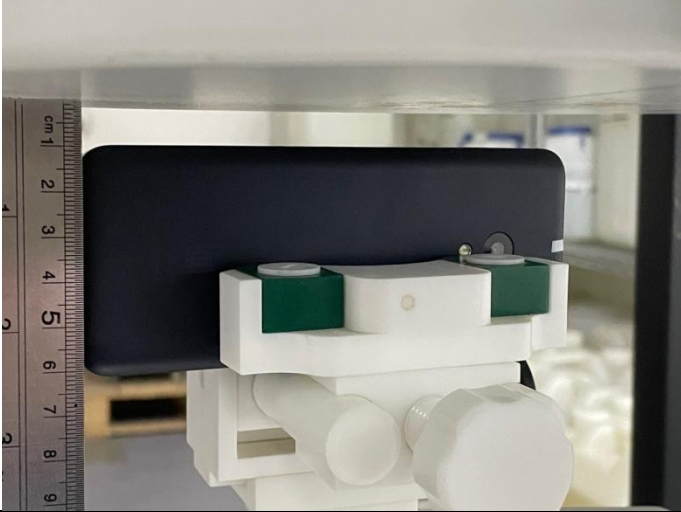

Front Side  
(Separation distance of 10mm)

Back Side  
(Separation distance of 10mm)

|                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                          |

|  A photograph showing the left side of a mechanical assembly. A white plastic component with a green rectangular feature is mounted on a dark blue base. A ruler is placed vertically to the left of the assembly, showing a scale from 1 to 9 cm. The separation distance between the green feature and the base is approximately 10mm. |  A photograph showing the right side of the same mechanical assembly. The white plastic component and green feature are visible from a different angle. The ruler is again present for scale, confirming the 10mm separation distance. |
| <p>Top Side<br/>(Separation distance of 10mm)</p>                                                                                                                                                                                                                                                                                                                                                                        | <p>Bottom Side<br/>(Separation distance of 10mm)</p>                                                                                                                                                                                                                                                                     |
|  A photograph showing the top side of the mechanical assembly. The white plastic component is positioned above the green feature. The ruler is used to measure the vertical separation, which is approximately 10mm.                                                                                                                    |  A photograph showing the bottom side of the mechanical assembly. The white plastic component is positioned below the green feature. The ruler is used to measure the vertical separation, which is approximately 10mm.               |
