

尺寸:336X124mm

● QIN F30 User Guide

● Basic Info

Model	QIN F30
Screen Size	2.8 inches
Screen Resolution	480*640
IR	Built-in IR
Battery Capacity	2120mAh
Charge Input	DC5V-1.5A
Height	131.7mm
	5.39inch
Width	53.5mm
	2.11inch
Thickness	9.5mm
	0.37inch
Bluetooth	Support
Audio	Single Channel
Wi-Fi Hotpot	Support
Frequency Band	2G/3G/4G

2G: B3/B8
3G: B1/B8
LTE-FDD: B2/B4/B12/B13/
B17/B66/B71

- **Function Introduction**

IR Remote Control

Combined with infrared remote control technology, it can control many home devices instead of another remotes (For the first use, please set it as remote control).

Other Service

- Sync Assistant: Quickly import contacts and easy to operate.
- Translator: Support up to 62 languages and voice translate in real time (recharge on demand, specific payment standard is subject to software payment).

Other Functions

Provide rich daily life services, such as setting alarm clock, checking weather, listening to news, playing music, etc.

- **Important Safety Infor**

- Please read all safe guidelines before use for important information on the safety.
- Use any unapproved or incompatible batteries or chargers may present a risk of fire, explosion, or other hazard.
- Always use between 0°C (32° F) -35° C (95 °F) for optimal performance and store the device and spare parts between 20 °C (68 °F) -45°C (113 °F) when not use. A device with a hot or cold battery may not work temporarily.
- Use the original battery otherwise any replacement may cause explosions. And must follow the instructions to deal with dead battery.
- Please use the authorized charger otherwise it will cause leakage, fire or damages to device.
- When done, unplug the charger from the phone, then from the wall outlet. Do not charge consistently over 12 hours.
- Do not dispose batteries as household waste. Any uncertain process will cause a fire or explosion. Obey local regulations. Recycle when possible.

- Do not dismantle, cut, crush, bend, puncture, or otherwise damage the battery in any way. If there have extreme expansion, do not use it anymore.
- (1) Do not short connect the battery metal contact, resulting in short circuit danger, to avoid personal injury such as burns caused by overheating battery.
- (2) Do not put in a high temperature environment, an overheated battery may cause an explosion;
- (3) Do not dismantle, hit, crush battery, to avoid the leakage, overheat or explosion.
- (4) Do not dispose of batteries in a fire as they may explode.
- (5) Do not continue to use the battery with severe bulging.

- Place the device in a dry environment.
- Do not repair any device by yourself. If you think the device is damaged, take it to a service centre or your phone dealer before continuing to use it.
- When connect with other devices, please follow the user manual strictly.

Safety Warning

Upgrade software system through the system itself or Duoqin Official After-sales Center. Upgrade the system by other ways may lead to equipment failure or data loss and destroy the system, even trigger safety risk.

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loud speaker is in use.

- **Warning**

Please follow the relevant laws and regulations and do not use telephones in the following environments.

- Prohibited to use the device in gas stations, oil depots and chemical warehouses etc.
- Do not use in Surgery room, Emergency room, Deep Treatment department and other surroundings.

- To avoid interference, the device have keep away from pacemaker, cochlear implant and other medical equipment. More than 15cm(5.91inch) is a safety distance.
- Please consult doctor and medical device manufacturer before use.
- Obey all instructions to turn off the device when flying.
- Please do not use the device when you're driving.
- Do not use the device outside when there have thunderstorms.
- Do not take a call when charging.
- Do not use the device in high moisture area like bathroom, any improperly use may cause accidents.
- Obey all instructions in restricted areas.

Safety Information

Description of toxic and harmful substances.

Part Name	Toxic and harmful substances or elements					
	Pb	Hg	Cd	Cr6+	Pbb	Pbde
Phone body	X	O	O	O	O	O
Battery	O	O	O	O	O	O
Cable	O	O	O	O	O	O
Spare parts	O	O	O	O	O	O

This form is based on s/jt 11363-2006

O: indicates the content of all hazardous materials in the component is under the standard of gb/t 26572 (requirements for the limits of toxic and hazardous substances in electronic information products) the following limits are specified.

X: indicates the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements by s/jt 11363-2006.

This product meets the eu environmental requirements of rohs.

The environmental protection use period of this product refers to the period when the harmful substances or elements contained in the telephone (excluding the battery) and its accessory products will not leak out under normal use conditions, and when the users of electronic information products use the product will not cause serious pollution to the environment or serious damage to their persons or property.

Special Warning

- Pacemaker, Cochlear implant and other medical equipment will be interfered by the radio wave created

by device. Please consult doctor or medical device manufacturers before using this device.

To avoid potential interference, manufacturers of implanted medical devices recommend a minimum separation of 15.3 cm (6 inches) between a wireless device and the medical device.

This device meets RF exposure guidelines when used either in the normal use position against the ear or when positioned at least 0.2 inches (5mm) away from the body. The specific maximum SAR values can be found in the Certification Information (SAR) section of this user guide.

Warning

- (1) Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.
- (2) Caution: risk of explosion if battery is replaced by an incorrect type. Dispose of Used batteries according to the instructions.

(3) The product shall only be connected to a usb interface of version usb2.0.

(4) Adapter shall be installed near the equipment and shall be easily accessible.

(5) Operation temperature:-10~40°C

(6)The plug considered as disconnect device of adapter.

(7)Sar: the device complies with rf specifications when the device used at 0.5cm from your body (sar limit 2.0 W/kg). The device is in compliance with the requirements.

(8)Accessories information:

Adapter

Model: HJ-PD33W-EU

Input: AC 100-240V~50/60HZ 0.8A

Output: DC 5.0V --- 3.0A

DC 9.0V --- 3.0A

DC 11.0V --- 3.0A 33.0W

Battery: DC 3.85V, 6000mAh, 23.1Wh

This information has to be presented in such a way that the user can readily understand it. Typically, this will necessitate translation into every local language (required by national consumer laws) of the markets where the equipment is intended to be sold. Illustrations, pictograms and using international abbreviations for country names may help reduce the need for translation.

Eu declaration of conformity We
Shenzhen DOOGEE Hengtong Technology CO.,LTD (b, 2/f, building a4, silicon valley power digital industrial Park, no. 22,dafu industrial zone, guanlanaobei community, guanlans-treet,longhua new district, shenzhen)
Hereby declares that this smart phone is in compliance with the essential requirements and other relevant
Provisions of directive 2014/53/EU.
According to article 10(2) of directive 2014/53/eu, the smartphone 3.5 can be used in europe without restriction.
The full text of the eu declaration doc is available at the following: visit the web site <http://www.Doogee.Cc>

Restrictions in the 5 ghz band:
according to article 10 (10) of directive 2014/53/eu, the packaging shows that this radio equipment will be subject

To some restrictions when placed on the market in belgium (be), bulgaria (bg), the czech republic (cz), denmark (Dk), germany (de), estonia (ee), ireland (ie), greece (el), spain(es), france (fr), croatia (hr), italy (it), cyprus (Cy), latvia (lv), lithuania(lt), luxembourg (lu), hungary (hu), malta (mt), netherlands (nl), austria(at), poland

(pl), portugal (pt), romania (ro), slove-
nia (si), slovakia (sk),finland (fi),
sweden (se), the turkey (tr),
Norway(no), switzerland (ch), iceland
(is), and liechtenstein (li).
The wlan function for this device is
restricted to indoor use only when
operating in the 5150 to 5250 mhz
Frequency range.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of this Device. The Qin F30 (FCC ID: 2A6XG-QINF30) has been tested against this SAR limit. SAR information on this can be viewed on-line at <http://www.fcc.gov/oet/ea/fccid/>. Please use the device FCC ID number for search. This device was tested for typical operations 10mm from the body. To maintain compliance with FCC RF exposure requirements, 10mm separation distance should be maintained to the user's bodies.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC ID: 2A6XG-QINF30
