FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

This device complies with RF radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.

| <div>How to Use</div> <div>Setup Steps</div> <div>1. Start the car and wait for the car head unit system to be loaded.</div> <div>2. Connect the wireless CarPlay adapter to your vehicle's USB or USB-C port.</div> <div></div> <div>Connecting USB Data Ports</div> <div>Note : if your car has several ports, please be sure to plug the adapter into the port that is for wired Apple CarPlay.</div> <div>P-6</div> | <div>How to Use</div> <div>3. Turn on the Bluetooth and network of your iPhone</div> <div></div> <div>Turn on the Bluetooth and network of your iphone</div> <div>BT Device : Carplay-C1-xxxx</div> <div>Notes:</div> <div>A: Please do not connect to it or to any other network list at this time, just keep network on and not be occupied.</div> <div>B: BT Device: Carplay-C1-xxxx, The last four digits are randomly generated.</div> <div>P-7</div> | <div>How to Use</div> <div>4. Search for the adapter "Carplay-C1-xxxx" on your iPhone, then click it to pair. After a few seconds, the phone will prompt "Use CarPlay", click the prompt and wait for 5-10 seconds to connect successfully.</div> <div></div> <div>Connect your iPhone with adapter by Bluetooth</div> <div>P-8</div> | <div>How to Use</div> <div>5. After the first pairing, the wireless CarPlay adapter will automatically reconnect to your iPhone when you use it again (please make sure the phone's network and Bluetooth are turned on). In some cars, you may need to choose the option of "Start automatically" in the CarPlay settings to activate this function.</div> <div>Notes</div> <div>A. The adapter can be paired with multiple iPhones, but it can't connect with them at the same time. Before pairing to a new iPhone, please disconnect the network and Bluetooth of the currently connected phone.</div> <div>B. By default, the system will connect back to the last used iPhone. If the iPhone to be used this time is not the last used iPhone, you need to manually set up the connection.</div> <div>P-9</div> | <div>Scan below code to contact</div> <div></div> <div>Scan me</div> <div>1. Lifetime Extended Warranty.</div> <div>2. Technical support if you have any usage problems.</div> <div>Customer service email: help@isonicscape.com</div> <div>P-10</div> |
