

# Wireless Desktop Charger

## Enjoy wireless charging

### Features:

- Water resistance
- Pressure resistance
- Smart and convenient charging
- Easy For Assembly for the hole of office desk in the cafe /restaurant/bar/airport/train station

### Specification:

Model: 60124

Input: USB DC 5V/2A 9V/2A

Wireless output: 5W 7.5W 10W 15W

Standby energy consumption: <10mA

Working frequency rang: 110k-205 KHZ

Transfer efficiency: 72% (max)

Launch distance: 6mm

Installation diameter: 60mm

Temperature of outer case: 55 °C (max)

Size: Φ74x18mm

Weight: 91g

Authenticate: CE FCC ROHS

### Use:

Phone built-in or add a wireless receiver to it. The Led indicator remains red when connected to the power and changes to blue after successful connection. Meanwhile, the buzzer will sound. Qi standard transmitter is charged automatically once recognized approximately 5 seconds.

### FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two.

### Conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following.

### Measures:

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

### FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
