Ervice Assurance

Thank you for purchasing this product. You can enjoy one-year free space parts and manual service assurance provided by our company.

Service support Email:service@simodewa.com

The following conditions lead to the need for our company to provide services, and the maintenance fees will be charged as appropriate:

- .Failure to perform proper operations according to the user manual or instructions.
- .Man-made damage, computer viruses, dampness, improper software installation or self-disassembly, etc.
- .Fire, flood, wind, earthquake and other irresistible forces.
- .Abrasive wear caused by accessories, consumables and natural use.
- .If we need to re-install software or adjust computer setting on our behalf, we will charge fees as appropriate.
- .Our company provides warranty for the damaged or dirty logo which may result in un-recognizability.

Please backup your personal data before sending the product to repair.

Product Interface Description

The diagram illustrates the front and back views of the SI-B560 MINIPC. The top view shows the front panel with ports 1 (HD), 2 (USB3.0), 3 (LAN), 4 (Power Input), and 5 (Type-C). The bottom view shows the back panel with ports 6 (Fan outlet), 7 (Earphone), 8 (Power Button), and 9 (USB2.0). The side view shows the device's profile.

1, HD Port	2,USB3.0	3,LAN	4, Power Input	5, Type-C (DP/DATA)
6,Fan outlet	7,Earphone	8,Power Button	9 , USB2.0	

Instructions

1. Connect the device with the display device (such as TV, screen, projector, etc.) via HD line, and select the “video input source” of the display device to the connected HD input channel.

2. DC power supply: Connect the DC interface of the power cord of the accessories to the device and insert the other end directly into the socket.
3. Use the device by connecting it with a wired or wireless keyboard and mouse via USB port.
4. Press the power button to start the system.

Packing List:

1. Computer Box *1
2. User Manual *1
3. Power Adapter *1
4. HDMI Wire * 1
5. Rack Accessories *1

Note

1. This Low-power RF motor is a certified and qualified product. Companies, businesses or individuals may not change the frequency, enhance the power or change the characteristics and functions of the original design without permission.
2. Low-frequency RF motors should not affect flight safety and interface with legitimate communication when they are used. When interference is found, they should be stopped using immediately and be improved to no interference before they can continue to be used. Legitimate communication refers to wireless communication in the work prescribed by law. Low-frequency RF motor must be able to tolerate the interference of legitimate communication or electromagnetic radiation motor equipment for industrial, scientific and medical purposes.
3. This product contains miniature batteries for mainboard CMOS, which can’t be replaced by consumers themselves. It may be dangerous if consumer replace incorrect types of batteries by themselves. Please properly handle the battery replacement.

Attention

1. This product is suitable for places below 3000 meters above sea level, this product is only suitable for non-tropical areas.
2. After abnormal withdrawal or accidental power failure of the mini pc system, the hard disk scanning should be carried out as soon as possible to repair the errors in time.
3. If you do not use the device for a long time, Please unplug the power adapter.
4. The ideal working temperature of the device is 10-35 degrees, and the relative humidity is 30-80%.
5. The device should not be turn on or off frequently.
6. Don’t get water, food and other fluids onto the device, and don’t pull the data and power lines with force.
7. Avoid direct exposure of strong light to the device, and do not put it near the strong magnetic field
