Specification

Name: 3 IN 1 Wireless charger	Input power: 5V/2A 9V/3A
model: HY08	Output Power: 5W/7.5W/10W/15W Max
Product Size: 117*118*65.4mm	watch power: 2.5W
Package dimensions: 107*120*68mm	Headphone power: 3W
material: ABS	priority distance: 3-6mm
	Conversion efficiency: ≥75%
	working frequency: 115-205KHz

Precautions

1. Do not hit this product or throw it into fire or water to avoid short circuit leakage.
2. Do not store this product in a place with a lot of dust and high or low temperature (temperature range -10—+40°C)
3. Please keep the distance between the implanted medical device (pacemaker, cochlear implant, etc.) and the wireless charger at least 20CM to avoid potential interference with medical equipment.
4. Please place this product in a place that is not easily accessible to children to avoid accidents.
5. Please use the standard accessories of this product. If the product is damaged due to the use of non-standard accessories, it is not covered by the warranty.
6. It is forbidden to disassemble the product without permission. If the product is damaged, it will not be covered by the warranty.

Package

Wireless charger *1 Type-C charging cable *1 The instructions *1

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
