

Using the USB Data Ports

Connect the small end of the USB cable to the USB 2.0 micro port on the stand. Connect the USB connector to an open USB port on your computer. The USB charging port can charge or power any device that is powered or charged by USB 2.0.

Using the Wireless Charging Pad

Note: The wireless charging pad will only charge compatible devices. See the Compatibility section at the start of this user guide, or consult your device's manufacturer's guide.

1. Connect the mini micro port of the USB charging cable to the wireless charging input port.
2. Connect the USB input port of the USB cable to an open USB port on your computer, or another USB power source.
3. When connected to power, the LED indicator will flash RED, then GREEN, then turn OFF.
4. Place your device in the center of the charging pad. If it does not begin charging, try repositioning your device. You may need to remove your case.

Caution: Do not place any metal or foreign object on the charging pad.

Getting Started

Location of Controls

Using the USB Ports

The monitor stand provides 3 USB 2.0 data ports and 1 USB charging port (max. output: 5V/2A). The USB data ports will work with most thumb-drives, wired USB mice and/or keyboards, plug-in connectors for wireless mice and keyboards, and most other USB peripheral devices.

The USB charging port can charge or power any device that is powered or charged by USB 2.0.

Using the USB Data Ports

Connect the smaller end (USB Plug 3) of the USB cable to the USB 2.0 micro port on the stand leg. Connect the USB Plug 1 to an open USB port on your computer or laptop.

Note: Some USB peripheral devices, such as external hard drives, may require additional power to properly function when connected to the USB data ports on the monitor stand. In the event that your device does not function properly, disconnect from the stand immediately and plug directly into your computer instead.
