Battery installation:

1. Use a Philips screwdriver to unscrew the battery compartment cover located on the base of the unit.

2. Insert 4 x 1.5V, AA new batteries, ensuring the correct polarity as indicated on the sketch.

3. Replace the cover and tighten the screws.

Operating Instructions:

Enjoy the K9 with your Bluetooth® enabled smartphone.

1) To work with this product, please download our FREE application using the Google Play™ store app or App Store™ with searching the keywords “DR301”

SEARCH “DR301”

2) Press and hold the On/Off button for 2 seconds

3) The device will be in the Mode 1.

4) Press once again will enter Mode 2.

5) Press once again will go back to Mode 1 and so on.

Press and hold On/Off Button for 2 seconds will turn off the K9.

Note : To save power, please turn off the unit if not in use.

Mode 1 : Remote Control by smartphone

The K9 should be connected with your Bluetooth® device. Once it is connected, the eye (RED LED) will light up and stop flashing. Now you can drive the K9 via our app.

For more detail of the app operation, please read the “SUPPORT” page in the app.

Note : Under mode 1, K9 will turn off if not in use for 3 minutes.

Mode 2 : Static Speaker

The keypad (RGB LED) will flash at 0.5Hz.

The K9 should be connected with your Bluetooth® device. In this mode, the unit cannot be controlled by the apps and used as a speaker.

Note : Under Mode 2, you have to turn off the unit by pressing the On/OFF button for 2 seconds.

How to pair up Bluetooth® device

1. Place the Bluetooth® device within 1 meter and power on the K9

2. Red eye light is flashing.

3. Perform the pairing procedure on your smartphone to detect the K9.

When the list of detected devices appears on the display of the Bluetooth® device, select “K9”

4. Build “K9” Bluetooth® connection from your smartphone. When the connection is made, the eye (red indicator) lights up.

Under the environment with electrostatic discharge, the product may malfunction. It requires user to reset the unit by replacing the batteries.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.
