Gentlemen:

This letter is to formally notify you that the following modification that was completed by Compatible Electronics, Inc. to our RF Control System - Transmitter and Model: 2AAEWHBRFHS001 during FCC certification will be implemented in production.

Modification:

During the testing of the transmitter for compliance, the value for resistor R13 was changed to 470 Ω to get closer to the limit. This has been reflected in the schematic for the transmitter. The corrected schematic will be used to produce all future units.

Sincerely,

A handwritten signature in black ink, reading "V.J. Wigington". The signature is written in a cursive, flowing style.

VJ Wigington
President
