Málaga, España

Ref: FCC Modular approval letter for FCC ID: 2AAGMSP150Q

To whom it may concern:

The following attestation addresses the fourth requirements to support modular approval:

- This device is designed for mobile or fixed operation; portable operation is subject to a Class 2 permissive change application or to a new and separate FCC ID.
- The maximum antenna gain is limited to the values calculated in the RF exposure exhibit for each mode/frequency band respectively.
- The product has a FCC ID label on the device itself. Also, the OEM host end product manufacturer will be informed to display a label referring to the enclosed module. The exterior label will read as follows: "Contains Transmitter Module FCC ID: 2AAGMSP150Q" or "Contains FCC ID: 2AAGMSP150Q".
- We request to include in the grant the following words in the device description or grant notes: "modular transmitter" or "transmitter module".

If there are any additional questions or if further information is needed, please contact us.

Sincerely,
PA
