RE: Confidential Treatment for Application (FCC ID 2AAIE-0610) (Long Term)

Dear FCC:

In connection with the Equipment Authorization application for FCC ID 2AAIE-0610, Paden LCC and our affiliates ("***Paden***") seek indefinite confidential treatment (starting from our application date) for the following confidential information and materials contained in our application package pursuant to 47 CFR Section 0.457 and 47 CFR Section 0.459 and related rules of the Commission:

Schematics
Block diagram
RF operational description
Procedure for Tune-up

This information is very sensitive, non-public details about the way that Paden designs, makes, assembles and maintains our products.

We request this special treatment because we keep this information confidential and only share this information on a need to know basis and under contracts with third parties who must maintain the confidential status of the information, including after Paden commercially announces and begins selling our products.

Further, we cannot afford for our competitors (whether current or future) to gain an unearned and unjust commercial benefit/advantage over Paden, our products or our business at all, but more importantly not in the highly competitive market space by learning information we have no intent to make public or be used for the public's benefit. Should it become publicly available and our competitors were to learn any portion of this information, it would be extremely detrimental to our business.

Paden LLC

*699 Walnut Street, Suite 400, 4th Floor
Des Moines, Iowa 50309*

We thank you for your support in approving this request. I am happy to discuss any concerns.

Regards,

A handwritten signature in cursive script that reads "Amy Siebert".

Amy Siebert
