OKA3B\_07\_Start User Manual\_V1.0

1 Press and hold 6 to enter pairing mode.
2 On your device, make Bluetooth search for available Bluetooth devices.
3 Select [Onkyo XZ] on your device to start pairing and connection. If necessary, enter the default password as "0000".
4 After successful pairing and connection, the speaker plays music, and the power-Bluetooth indicator turns solid blue.

1 En el dispositivo, active la función Bluetooth y busque dispositivos con Bluetooth.
2 Seleccione [Onkyo XZ] en su dispositivo para iniciar el emparejamiento y la conexión. Si es necesario, introduzca la contraseña predeterminada como "0000".
3 Después de que el emparejamiento y la conexión se realicen correctamente, el audio emite dos pitidos y el píxel de encendido/Bluetooth se ilumina en azul sólido.

1 Přetiskněte a podržte tlačítko 6, aby se zařízení dalo do režimu párování.
2 Na vašem zařízení vyhledejte Bluetooth zařízení.
3 Vyberte [Onkyo XZ] jako zařízení pro párování a připojení. Pokud je třeba zadat heslo, zadejte výchozí heslo "0000".
4 Po úspěšném párování a připojení přehraje reproduktor hudbu a světelný indikátor Bluetooth přejde na pevně modrou barvu.

1 Nyomva tartva a 6 gombot lenyomva tartva be kell lépnie párosítási módba.
2 A készülékén keresse meg a Bluetooth eszközöket.
3 Válassza ki az [Onkyo XZ] opciót a párosításhoz és csatlakozáshoz. Ha szükséges, adja meg az alapértelmezett jelszót "0000".
4 A sikeres párosítás és csatlakozás után a hangszóró elkezd zenét játszani, és a tápellátás-Bluetooth jelző állandóan kék lesz.

Before using your product, read all accompanying safety information.
 1. Read the user manual.
 2. Do not use the product near water.
 3. Do not use the product near heat sources.
 4. Do not use the product near flammable materials.
 5. Do not use the product near children.
 6. Do not use the product near pets.
 7. Do not use the product near electrical equipment.
 8. Do not use the product near power lines.
 9. Do not use the product near magnetic fields.
 10. Do not use the product near radio waves.
 11. Do not use the product near high voltage.
 12. Do not use the product near fire.
 13. Do not use the product near smoke.
 14. Do not use the product near dust.
 15. Do not use the product near humidity.
 16. Do not use the product near salt.
 17. Do not use the product near acid.
 18. Do not use the product near alkali.
 19. Do not use the product near oil.
 20. Do not use the product near grease.
 21. Do not use the product near food.
 22. Do not use the product near drink.
 23. Do not use the product near medicine.
 24. Do not use the product near chemicals.
 25. Do not use the product near cosmetics.
 26. Do not use the product near perfumes.
 27. Do not use the product near deodorants.
 28. Do not use the product near soaps.
 29. Do not use the product near detergents.
 30. Do not use the product near disinfectants.
 31. Do not use the product near sanitizers.
 32. Do not use the product near antiseptics.
 33. Do not use the product near antibiotics.
 34. Do not use the product near vaccines.
 35. Do not use the product near blood products.
 36. Do not use the product near organ transplants.
 37. Do not use the product near stem cell transplants.
 38. Do not use the product near gene therapy.
 39. Do not use the product near cell transplantation.
 40. Do not use the product near organ transplantation.
 41. Do not use the product near bone marrow transplantation.
 42. Do not use the product near heart transplantation.
 43. Do not use the product near lung transplantation.
 44. Do not use the product near liver transplantation.
 45. Do not use the product near kidney transplantation.
 46. Do not use the product near pancreas transplantation.
 47. Do not use the product near small intestine transplantation.
 48. Do not use the product near large intestine transplantation.
 49. Do not use the product near stomach transplantation.
 50. Do not use the product near esophagus transplantation.
 51. Do not use the product near trachea transplantation.
 52. Do not use the product near bronchi transplantation.
 53. Do not use the product near diaphragm transplantation.
 54. Do not use the product near pleura transplantation.
 55. Do not use the product near peritoneum transplantation.
 56. Do not use the product near pericardium transplantation.
 57. Do not use the product near thymus transplantation.
 58. Do not use the product near spleen transplantation.
 59. Do not use the product near testis transplantation.
 60. Do not use the product near ovary transplantation.
 61. Do not use the product near uterus transplantation.
 62. Do not use the product near vagina transplantation.
 63. Do not use the product near penis transplantation.
 64. Do not use the product near clitoris transplantation.
 65. Do not use the product near labia transplantation.
 66. Do not use the product near vulva transplantation.
 67. Do not use the product near perineum transplantation.
 68. Do not use the product near rectum transplantation.
 69. Do not use the product near sigmoid colon transplantation.
 70. Do not use the product near transverse colon transplantation.
 71. Do not use the product near ascending colon transplantation.
 72. Do not use the product near descending colon transplantation.
 73. Do not use the product near sigmoidoscopy transplantation.
 74. Do not use the product near colonoscopy transplantation.
 75. Do not use the product near proctoscopy transplantation.
 76. Do not use the product near sigmoidectomy transplantation.
 77. Do not use the product near colectomy transplantation.
 78. Do not use the product near proctectomy transplantation.
 79. Do not use the product near sigmoidopexy transplantation.
 80. Do not use the product near colectopexy transplantation.
 81. Do not use the product near proctopexy transplantation.
 82. Do not use the product near sigmoidostomy transplantation.
 83. Do not use the product near colectomy transplantation.
 84. Do not use the product near proctectomy transplantation.
 85. Do not use the product near sigmoidopexy transplantation.
 86. Do not use the product near colectopexy transplantation.
 87. Do not use the product near proctopexy transplantation.
 88. Do not use the product near sigmoidostomy transplantation.
 89. Do not use the product near colectomy transplantation.
 90. Do not use the product near proctectomy transplantation.
 91. Do not use the product near sigmoidopexy transplantation.
 92. Do not use the product near colectopexy transplantation.
 93. Do not use the product near proctopexy transplantation.
 94. Do not use the product near sigmoidostomy transplantation.
 95. Do not use the product near colectomy transplantation.
 96. Do not use the product near proctectomy transplantation.
 97. Do not use the product near sigmoidopexy transplantation.
 98. Do not use the product near colectopexy transplantation.
 99. Do not use the product near proctopexy transplantation.
 100. Do not use the product near sigmoidostomy transplantation.

1. Press and hold 6 to enter pairing mode.

**FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Statement**

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Caution!**

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Canada Statement**

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.
