- Red light on: Charging
 - Blue light on: Fully charged
 - Blue light flashing quickly: Bluetooth pairing;
 - Blue light flashing slowly: Bluetooth paired successfully.

Usage

Charging the Speaker Stick

With the Speaker Stick switched **OFF**, connect it via USB cable (included) to a computer. The LED indicator will illuminate **red** and will go out when charge is completed (approximately 1.5-2 hours).

Pairing Speaker

Switch **ON** the Speaker Stick. The speaker will sound and the LED indicator will be flashing quickly indicating that it is ready to auto-pair. Make sure all other devices that have a Bluetooth option is turned **OFF**. Prepare your phone, tablet, PC or other Bluetooth device to pair the unit via Bluetooth. Click on the **ROYAL BT10 SPEAKER** file from your device. Wait a moment till the devices are paired. Once the pairing is completed, **CONNECTED** will appear on your device. A beep will sound and a LED indicator will flash slowly on your speaker. Go to your music or video file and enjoy wireless music or sound.

Listening to your Audio Device

You can control the Speaker Stick by using buttons from the speaker. Press "<" button to Play/Pause/Resume audio playback. Press "-/+>" to go to previous/next track. Also, you can control the volume by pressing and holding the "+/+>" buttons (beeps will sound when it reach minimum / maximum volume level).

Usage Continued

Phone Call Entry

You can control incoming calls using buttons from the speaker. For an incoming call, the speaker and the cell phone will ring your call tone. Both may sound depending on your device settings. To Answer/Hang up the phone, short press "<" button. To Reject the phone call, long press "<" button. Once the phone call ends, your music will begin from where it was stopped.

Notes

1. Pairing code is not required
2. Once you have successfully paired the Speaker Stick, your device should pair automatically every time your BT connection is activated.
3. Ensure your AUX input is unplugged and your device has been BluetoothR enabled.
4. Hands-free call is only available on BT connected status. Bluetooth is a bidirectional transmitting device; transmitting distance is highly related to audio player. Compatible BT players are recommended.
5. The sound performance and operating distances could also be affected when BT transmitting devices is under poor signal environment, or under low battery capacity.

BACK

Usage Continued

6. Only the silicone gel housing is splash resistant. Do not submerge the unit in water.
7. Because of different surfaces the Speaker Stick may not stay affixed for extended time. Try different surfaces for the best possible location.

FEDERAL COMMUNICATIONS COMMISSION (FCC) RADIO
FREQUENCY INTERFERENCE STATEMENT INFORMATION TO THE
USER

CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. If applicable, connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

Connection of peripherals to this unit requires the use of grounded, shielded cables to ensure compliance with the Class B FCC limits.

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
