## QUICK START GUIDE

TLA-101-WHT, TLA-101-BLK

### POWER STATUS

Press Power button (⏻) quickly to see remaining power.

### WIRELESS CHARGING

Press and hold Power button (⏻) for 3 seconds to activate wireless charging.

First LED will:

- pulse while waiting 15 seconds to detect a wireless device
- turn solid when wireless device is within wireless range and charging begins
- flash red when a foreign object is detected

### WIRED CHARGING

Plug USB-C plug (≡) into USB-C device or connect USB cable to USB port (≡) in Wireless Charger. Press and hold power button for 3 seconds to activate output charging.

### CHARGING WIRELESS CHARGER

To charge Wireless Charger, plug USB plug (≡) into USB power brick.

**Operation frequency: 127.24-172.28 kHz**

**H-field strength: -10.24dBμA/m @10m distance (for EU)**

## REGULATORY INFORMATION

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Tesla Netherlands B.V.

ITO Tower, 11th Floor, Gustav Mahlerplein 76A, 1082 MA,

Amsterdam, Netherlands

## Attention

- Please keep the charger away from water and other liquid.
- Please make sure it is not connected power supply if you need to clean the charger.
- Using environment temperature remains 0-45 C.

This equipment has been tested and found to comply with the limits for a class B and WPC device, pursuant to Part 15 and Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ce matériel est conforme aux limites de dose d'exposition aux rayonnements ic rss-102 énoncées pour un autre environnement. cet émetteur ne doit pas être situées ou opérant conjointement avec toute autre antenne ou l'émetteur.
