Subject: Use of LE866-SV1 documentation and FCC reports

Dear Sir or Madam:

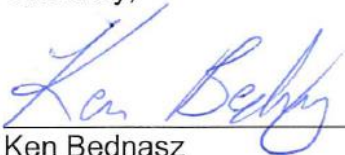

Telit authorizes integrator/customer MEDICALgorithmics to use the LE866-SV1 construction documentation (schematics, BOM, Block diagrams, etc.) that must remain permanently confidential and the FCC reports for FCC certification of their P4TR-AA-ADS PocketECG transmitter

MEDICALgorithmics may use MPE, part 15, 22, 24, 27 test reports along with all necessary documentation pertinent to Telit radio module LE866-SV1 and is authorized to use the company name "Telit", product name "LE866-SV1" solely for the certification process of P4TR-AA-ADS PocketECG transmitter which have the Telit LE866-SV1 embedded.

The Test Reports supplied by Telit to the FCC for our submission for grant are still representative of LE866-SV1 manufactured today.

If you have any questions or concerns feel free to contact me.

Sincerely,

Ken Bednasz
Vice President of Application Engineering
