Subject: Request for Permanent Confidentiality FCC  
FCC ID No.: 2AB2MPECGT-IIIV

Ladies and Gentlemen:

Medicalgorithmics S.A. requests that the information contained in the items enumerated below pertaining to the above-referenced application be withheld from public disclosure in accordance with Commission's Rules 47 C.F.R. § 0.459 and 0.457, following grant of the application. In support of this request, Medicalgorithmics S.A. submits the following:

**(1) identification of the specific information for which confidential treatment is sought:**

Schematics,  
Block Diagrams,  
Parts List/ BOM,  
Theory of Operation/ Operational description

The materials set forth in these exhibits, which are segregated from the non-confidential exhibits of the application, are those for which confidentiality is sought.

**(2) identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:**

The proceeding is that involving the certification of FCC ID No.: 2AB2MPECGT-IIIV

**(3) explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:**

This information is embodied in circuit diagrams, detailed explanations, a block diagram and Theory of operation of a device designed for medical professions such as physicians and/or cardiologists. As such, this material is treated as highly confidential business information and information that could convey trade secrets pertaining to manufacturing and design techniques.

**(4) explanation of the degree to which the information concerns a service that is subject to competition:**

The information for which confidentiality is sought is employed in the design and manufacture of medical device system that are offered on a highly competitive basis. Customers for this equipment have a variety of competing sources of supply from both domestic and foreign suppliers.

**(5) of how disclosure of the information could result in substantial competitive harm:**

Disclosure would, in effect, give away the fruits of the labors of Medicalgorithmics S.A.'s engineering personnel, who have designed the equipment and the manufacturing processes. Disclosure would also offer competitors additional unwarranted insight into the state of product development thereby allowing such competitors an advantage that would not be available to Medicalgorithmics S.A.

**(6) identification of any measures taken by the submitting party to prevent unauthorized disclosure:**

The information for which confidential treatment is sought is kept confidential by Medicalgorithmics S.A. and not made available to third parties except pursuant to arrangements designed to prevent public disclosure.

**(7) identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:**

To the knowledge of those preparing this application, the information has not been disclosed publicly heretofore. The protection sought is narrowly drawn and pertains to certain specific implementations of the technology incorporated into the device for which certification is sought.

**(8) justification of the period during which the submitting party asserts that material should not be available for public disclosure:**

This material should not be disclosed for at least five years. While improvements in design are likely to be made during this period, disclosure of the design information would lead to insights into both designs and manufacturing techniques and could have an adverse competitive effect for many years to come. This application contains information that will be used in future applications for similar devices.

Sincerely,

A handwritten signature in blue ink, appearing to read "Przemysław Tadla".
