

-
- The image shows the internal components of a white electronic device. A green printed circuit board (PCB) is mounted within a white plastic housing. The PCB features a central circular component, likely a speaker or microphone, and two LEDs: a red one and a yellow one. A copper wire is looped around the top of the PCB. A barcode label with the text '*04E1C90' is visible on the PCB. Other labels include '2212' and 'V1'. The bottom of the device shows two metal contacts with springs, labeled 'BT2' and 'BT4'.
