Subject: Output Power Control

The software control interface of this device does not provide ways for customers to modify the RF output power, the RF output power is fixed and cannot be changed.  
Only the same 3dBi suction cup antenna with reverse thread SMA connector, as tested in this filing is legal to use with this product in the US. This antenna is always shipped with the product.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read "M. Koop".

M. Koop
