Safety Notes:

The DVD video display of the in-dash unit will not operate while the vehicle is moving. This is a safety feature to prevent driver distraction. In-dash DVD video functions will only operate when vehicle is in Park and the parking brake is engaged. It is illegal in most states for the driver to view video while the vehicle is in motion.

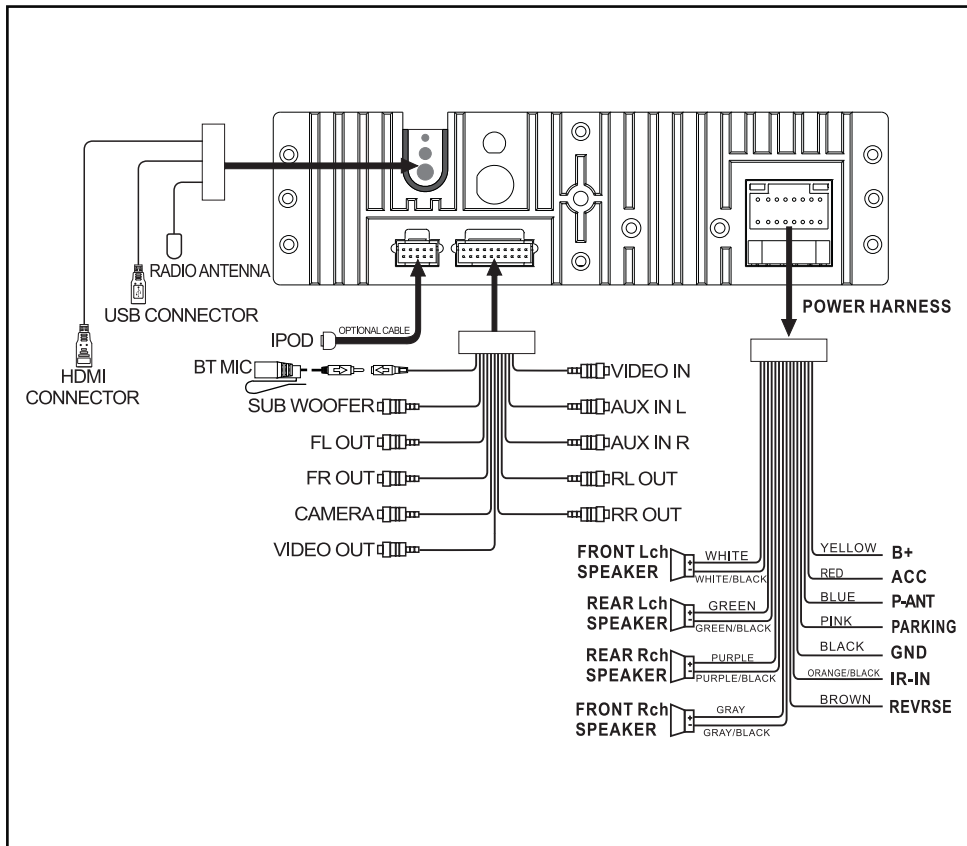

Installation

General Operations

Setup Menu

From the Main Menu screen, press Setup to enter the Setup Menu. The first 7 setup options will be displayed on the screen.

Bluetooth Operation

Bluetooth Microphone

Bluetooth features of the Multi Media function with the included external microphone, which is designed for mounting to the visor or A-pillar inside the vehicle.

Pairing and Connecting

Before you can use a Bluetooth device, it must be paired and connected. The Multi Media broadcasts the pairing signal constantly when no devices are currently connected. Complete the pairing sequence from your Bluetooth device. The device name is "Dual BT". The Bluetooth passcode "1234". Once pairing is complete, most Bluetooth will connect automatically if the device is in range when the Multi Media is powered-on.

Dialing a Number

Press to display keypad and dial a number.

Making and Ending a Call

Press to connect a call, and press to end a call.

Accessing Recent Call List

Press to access the recent call list and view/select numbers from recent Received, Dialed or Missed calls.

Transferring Audio

Press to transfer audio between the head unit and mobile phone.

Streaming Audio

Press to enter the music control menu. Press to play or pause the music. Press to skip to the previous track. Press to advance to the next track.

HDMI Operation

Please find the separate sheet for the HDMI operation.

F CC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
