## IMPORTANT INSTRUCTIONS

### CAUTIONS

- Before using the unit please read the manual.
- Never try to repair this product yourself, take it to an authorized technician. Trying to remove panels or repairing the unit yourself could result in an electric shock. Servicing is required when the unit has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen onto the unit, the unit has been exposed to rain or moisture or does not operate normally.
- Excessive sound pressure from earphones and headphones can cause hearing loss
- Children under the age of 13 should not use this product without adult supervision.
- Strictly for indoor use. Do not expose to direct sunlight, moisture or extreme temperatures.
- In order to prevent injury, never attempt to remove the cover or any components.

### WARNINGS - UNIT

To reduce risk of fire, electric shock or product damage:

- Keep this product away from open flames such as candles.
- Keep this product away from any water, liquid or wet areas.
- Do not expose the unit to rain, moisture, dripping or splashing.
- Do not place objects filled with liquids, such as cups, on or next to this unit.
- If cover becomes wet disconnect power immediately and don't use until completely dry.
- Unplug the unit during lightning storms or when unused for long periods of time.
- Do not place the product in direct sunlight or heat, such as radiators. Keep away from temperatures over 35°C.
- Only use recommended accessories.
- Do not remove covers.
- Do not insert foreign objects into the product.
- Where an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- Do not attempt to repair this unit by yourself.

### WARNINGS - POWER CORD

- The unit should be powered off before plugging the product into the power outlet.
- This item is ONLY to be plugged into an AC 100V~240V Power outlet.
- The unit should be powered off before unplugging the product.
- Install this unit so that the power cord can be unplugged from the socket immediately if any problem occurs.

### CARE INSTRUCTIONS

- Clean only with a soft dry cloth. When dirt is heavy, wring the cloth moistened in water very tightly to wipe away the dirt, then wipe again with a soft dry cloth.
- Before using a chemically treated cloth, carefully read the instructions that came with the cloth.
- Do not use chemicals on this product. Never use alcohol, paint thinner or benzene to clean this unit.
- When cleaning the speaker covers, use a fine cloth. Do not use other materials (tissues or towels) that can fall apart. Small grains could fall inside the speak cover.

**Important - Please read these instructions fully before operation and keep for future reference**

**If you have a fault with your product, please call Sleep Secrets customer services for assistance on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)**

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase.  
Proof of purchase must be presented for any claim.

# Audio Kit for USB, Bluetooth, AUX

## UNIT & ACCESSORIES

- x1 Audio Kit (with speaker)
- x1 Power Adaptor (Input power:100~240V; DC5V/2.5A)
- x1 User manual
- x1 3.5mm AUX Connector Cable

## SPECIFICATION

### ELECTRO-ACOUSTIC

- Frequency: 40Hz~20KHz
- S/N:  $\geq 60\text{Db}$
- Separate Degree:  $\geq 50\text{dB}$
- THD+N:  $< 0.5\%$
- Output power (large speaker): RMS 22W
- Output power (2 small speakers): 6W x 2

### Remote Control

- Battery type x2 AA

## COMPATIBILITY

### USB

- Apple devices can play through the USB and charge the device
- All other audio devices will not play through the USB but may charge the device

### Bluetooth

- Only one audio device can be paired at any one time
- Bluetooth connection is named SleepSecrets

### MP3

- SD card only

### AUX

- Any audio device with a headphone outlet

### Headphone

- Any headphones or external speakers

#### IMPORTANT NOTE:

The USB slot will only work with Apple devices  
other non Apple devices may charge through  
the USB

**Important - Please read these instructions fully before operation and keep for future reference**

**If you have a fault with your product, please call Sleep Secrets customer services for assistance  
on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)**

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase.  
Proof of purchase must be presented for any claim.

# Audio Kit for USB, Bluetooth, AUX

## CONTROL PANEL

USB = USB indicator light (Red LED).

BT = Bluetooth indicator light (Blue LED).

MP3 = MP3 indicator light (Green LED) .To be used with SD card.

## Components Included

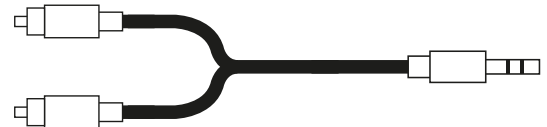

### IMPORTANT:

Please note that not all TV / Audio beds come with a Bluetooth Audio Transmitter

- 1 Bluetooth Transmitter Unit**  
(TV sound to sound system transmitter)

- 4 3.5mm jack to RCA L/R cable**

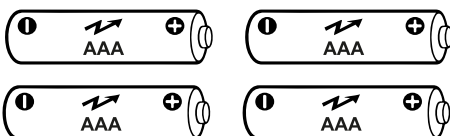

- 5 3.5mm stereo jack connector**

- 2 3.5mm jack to jack Cable (3 meters)**

- 3 Batteries AAA X4**

Mains transformer (not Included) can be purchased from many electronic retailers. The power supply must: Be fixed at 3 volts (NOT adjustable (e.g. 1.5v, 3v, 6v, 9v, 12v etc.))

**Important - Please read these instructions fully before operation and keep for future reference**

If you have a fault with your product, please call Sleep Secrets customer services for assistance on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase. Proof of purchase must be presented for any claim.

# Warnings, Safety and Care Advice

## **WARNINGS:**

- Never try to repair the unit yourself or remove the cover exposing wires. Contact Sleepsecrets customer service if problems occur.
- Strictly for indoor use.
- Keep away from open flames, liquids, wet surfaces, heat sources or direct sunlight.
- Children should not be allowed to use this item without adult supervision.
- Do not insert any foreign objects into the unit.
- Only use recommended accessories.
- Take care when replacing batteries.
- Beware other items stored under the bed may interfere with the transmitter signal. Be careful positioning the transmitter in order to get a good reception.

## **DO:**

- Place the unit in an area easy to reach. We recommend the DVD shelf underneath the bed.
- Consider purchasing Rechargeable AAA batteries for the bluetooth transmitter unit or a suitable power supply from an electronics store (see page 1). Always take care when replacing batteries and dispose of used batteries safely, and in an eco-friendly manner.

## **DO NOT:**

- Do not place the leads too close to the TV mechanism or its wiring. The leads will be damaged if caught on the lift mechanism.

**IMPORTANT: When not in use, switch the transmitter OFF.  
If left on, battery life will decrease rapidly.**

**Important - Please read these instructions fully before operation and keep for future reference**

**If you have a fault with your product, please call Sleep Secrets customer services for assistance on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)**

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase.  
Proof of purchase must be presented for any claim.

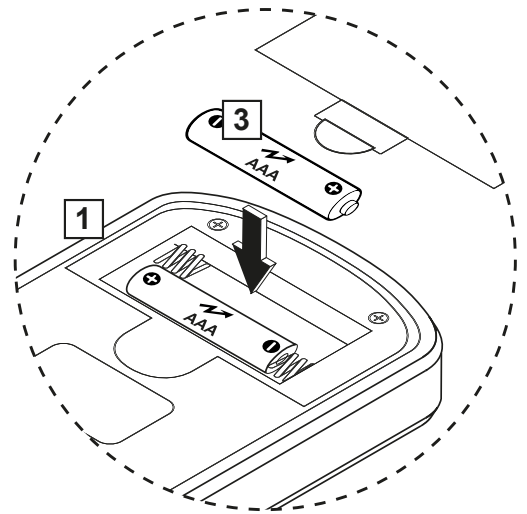

# Set-Up 1 Connection Via Headphones Socket

## INSERT AAA BATTERIES (supplied):

**Step 1.** Remove the battery cover on the back of the Transmitter Unit **1** and insert the AAA batteries **3**.

Please ensure you insert batteries into the unit the correct way round, ensuring that the + and - symbols are correct.

## CONNECTING TRANSMITTER TO TV Method 1: Via TV Headphone Socket

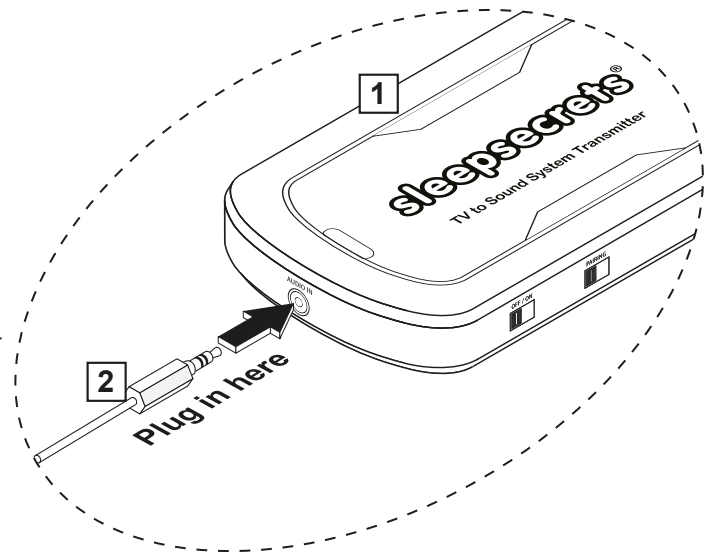

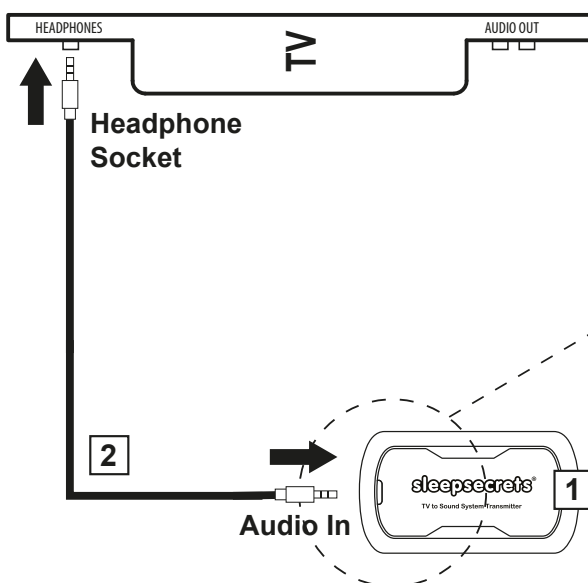

**Step 2.** Locate the headphone socket on your TV. Plug one end of the supplied 3 meter 3.5mm jack to jack audio cable **2** into the headphone socket.

**Step 3.** Connect the remaining end of the audio cable **2** into the socket marked **AUDIO IN** located at the end of the transmitter unit **1**.

If your TV has a headphone socket - and you have connected this successfully - proceed to Step 4 on Page 5. If not, please go to Page 4 and follow **Method 2** instructions for connection using Audio Out / Component sockets.

**IMPORTANT:** These diagrams are for illustration purposes only. The location of either **Headphone** or **Audio Out** sockets on your TV may be in an alternative position. If you cannot find these sockets please consult your TV user manual, or contact the TV manufacturer for support.

**Important - Please read these instructions fully before operation and keep for future reference**

If you have a fault with your product, please call Sleep Secrets customer services for assistance on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase. Proof of purchase must be presented for any claim.

# Set-Up 2 Connection Via Audio Out / Component

## CONNECTING TRANSMITTER TO TV

### Method 2: Via Audio Out / Component Sockets

Some TV's do not have a headphones socket and therefore require the connection to be made using the TV Audio Out / Component sockets via the supplied 3.5mm jack to component cable, these are colour coded Red and White

**Step 2a.** Locate the TV component RCA audio sockets on your TV, plug in the supplied 3.5mm jack into the RCA cable [4] into the sockets matching Red and White colour coded sockets.

**Step 2a.** Connect the remaining end of the supplied 3.5mm jack into the RCA cable [4] into one side of the 3.5mm stereo jack connector [5] - it does not matter which side first.

**Step 2b.** Connect the 3 meter 3.5mm audio cable [2] into remaining 3.5mm stereo jack connector [5]

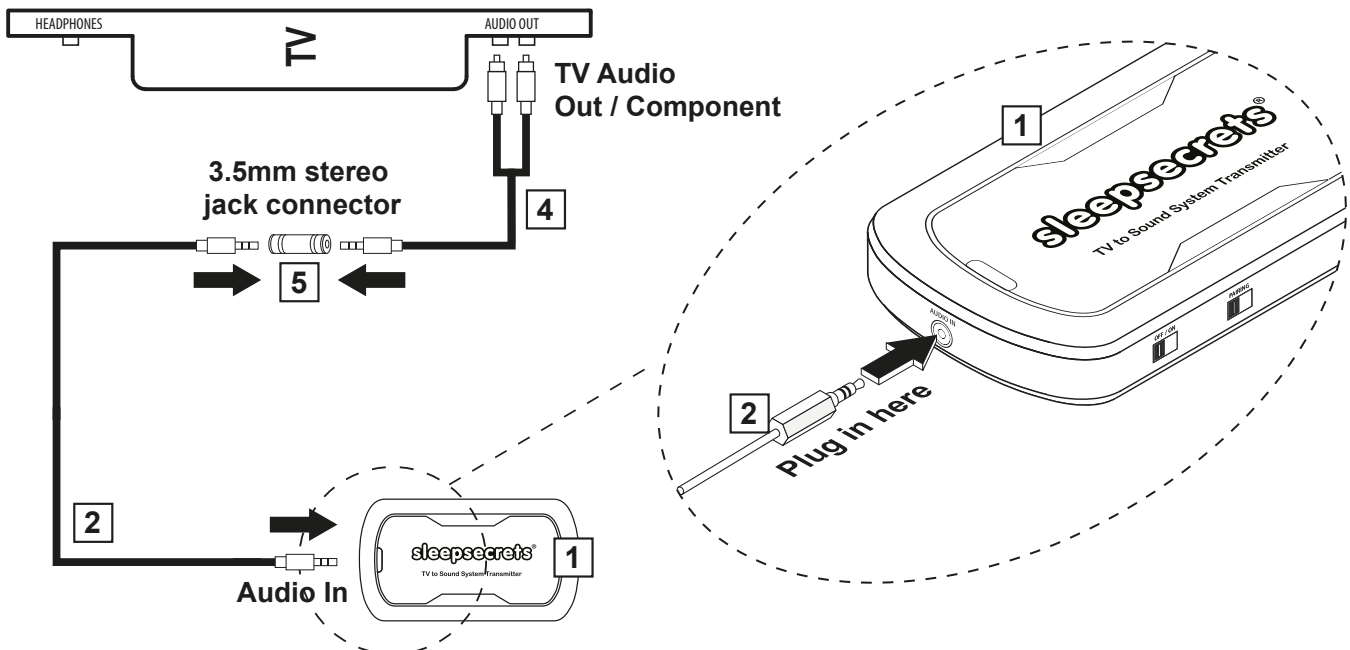

**Step 3.** Connect the remaining end of the audio cable [2] into the socket marked **AUDIO IN** located at the end of the transmitter unit [1].

IMPORTANT: These diagrams are for illustration purposes only.

The location of either **Headphones** or **Audio Out** sockets on your TV may be in an alternative position.

If you cannot find these sockets please consult your TV user manual or contact the TV manufacturer for support.

**Important - Please read these instructions fully before operation and keep for future reference**

If you have a fault with your product, please call Sleep Secrets customer services for assistance on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase.  
Proof of purchase must be presented for any claim.

# Pairing Bluetooth Transmitter to TV Bed

## BLUETOOTH PAIRING MODE:

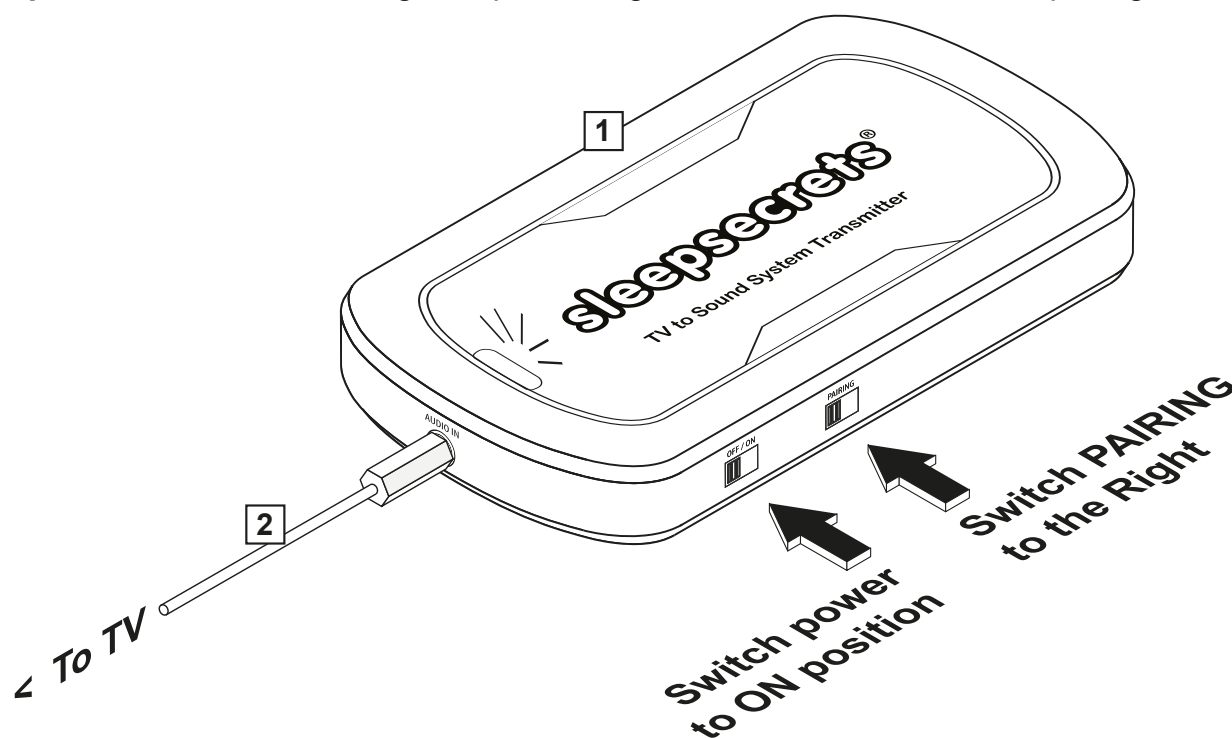

You must ensure that your device is not currently paired with another audio device or the device will not be able to pair to the transmitter.

**Step 4.** Check the audio system is connected to the mains power and is switched ON.

**Step 5.** Switch power for the transmitter unit **1** on by moving the OFF/ON switch into the ON position.

**Step 6.** Switch the PAIRING switch to the Right. The LED light will flash Blue & Green indicating the transmitter is searching for a device. This will change to a blue flashing light only.

**Step 7.** When the Blue LED light stops flashing and remains solid Blue, the pairing is successful.

**YOUR TRANSMITTER SET UP AND PAIRING IS NOW COMPLETE!**

**IMPORTANT: When not in use, switch the transmitter OFF.  
If left on, battery life will decrease rapidly.**

When transmitter is using normal AAA batteries, please turn OFF the power when not in use. You can also use a 3V mains adaptor (sold separately) to allow power switch to be left in the ON position. Batteries **MUST** be removed if 3V mains adaptor is connected (Please see page 1).

**Important - Please read these instructions fully before operation and keep for future reference**

If you have a fault with your product, please call Sleep Secrets customer services for assistance on 01992 450 333 Option 2 (Monday to Friday 08:30 - 17:30 excluding bank holidays)

This unit has a limited guarantee period by Sleepsecrets, 12 months from date of purchase.  
Proof of purchase must be presented for any claim.

## FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
