Re: FCC ID: 2ABLX-240Z

To Whom It May Concern:

The following application is submitted on behalf of our client, QMotion Incorporated, for evaluation of their model QMRS-240Z for certification under FCC Part 15.247.

The QMRS-240Z is a wireless window shade operating in the frequency range 2.405 – 2.480 GHz and based around IEEE 802.15.4 and the Zigbee communications protocol. Many roller shades can be joined into a network and controlled by the push of a single remote button. Central control or mapping of this network of roller shades is controlled (coordinated) by a coordinating router.

The QMRS-240Z was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
