BLUETOOTH® CONNECTIVITY

Wirelessly connect to your Smartphone, tablet, or laptop. The KickStart speaker is compatible with most devices equipped with Bluetooth® 2.1 or above. Audible voice prompts guide you through the connection process.

BUILT-IN POWER BANK FUNCTION (5V/1A)

Enjoy uninterrupted operation of your phone and other devices while you're on the go.

HANDS-FREE PHONE ANSWERING

Make and answer calls on your mobile phone, hands-free.

WIRED CONNECTION OPTION

Connect your speaker to any device equipped with a standard Ø 3.5mm audio jack using the included auxiliary cable.

RECHARGEABLE LI-ION BATTERY

Supplies up to 8 hours of operating time.

this products without USB cable .separate configuration by customers themselves,suggest configuration good effect quantity with shield

FIRST-TIME BATTERY CHARGING

Fully charge your speaker before using. Connect the unit via the charging port to the USB port on your computer, or to a USB Wall Charger or Car Charger, using the included Micro USB charging cable. The Charging Indicator LED will light up red. Once charging is complete, the indicator light will turn off. Full charging time is approximately 4 hours. A full charge will provide up to 8 hours of playing time.

POWER ON/OFF

Slide Power button to the left to turn the unit on. The unit will announce "Welcome". Slide Power button to the right to turn the unit off.

PAIRING

The unit will automatically go into Bluetooth® search mode when you turn it on. Turn on the Bluetooth mode on your phone or other device settings. The LED indicator (blue light) will flash quickly, and the voice prompt will announce

BACK

"Welcome" and then "Waiting to connect to Bluetooth device".

Find the pairing name "iHip KickStart" in your device's Bluetooth® settings, click on it, and wait for connection. If asked for a password, enter 0000 and confirm. The light will slowly flash blue when a connection is established. The voice prompt will announce "Connected to Bluetooth device".

To disconnect Bluetooth®, press and hold the PLAY/PAUSE button for 3 seconds.

MODE

Quickly depress Mode Selector to change modes between Bluetooth® (blue indicator light) and auxiliary (red indicator light).

PLAY/PAUSE

Quickly depress the PLAY/PAUSE button to play or pause. Press and hold the button for 3 seconds to disconnect Bluetooth®.

VOLUME CONTROL

Control the volume by pressing the "-" or "+" side of the VOLUME UP/DOWN button. Quickly depress the button to adjust the volume up or down in steps. Hold down the button (for 2+ seconds) to jump to minimum or maximum volume.

PREVIOUS/NEXT

Press |<< on the PREVIOUS/NEXT button to rewind to the previous song. Press >>| to skip to the next song.

PHONE ANSWERING

When connected to your phone in the Bluetooth® mode, an incoming call will automatically transfer to your speaker. Music will automatically pause during a call and resume after the call.

Press the PLAY/PAUSE button to answer a call, or hold the button down to reject an incoming call. Press the button again to hang up.

EXTERNAL DEVICE CHARGING

Make sure the speaker's battery is fully charged before charging your mobile device. Connect the unit via the Power

Bank charging port to your phone, tablet or laptop using the included Micro USB charging cable. Slide Power button to the left to turn the unit on. To avoid depleting the speaker battery do not play music and charge your device simultaneously. Check the charging status indicator of your device. Slide Power button to the right to cease charging.

WIRED CONNECTION

Connect your speaker to any audio device equipped with a standard Ø 3.5mm audio jack using the included auxiliary cable.

Note: When the speaker is connected via the audio jack, the Bluetooth function is disabled.

TROUBLESHOOTING

PROBLEM	REMEDY
No sound	Make sure the speaker is properly connected to the output device. See the "PAIRING" section of this manual. Make sure that the volume of your connected device is turned on. Turn up the volume on the speaker. Make sure the speaker is charged. Make sure the speaker is within 30 feet, without obstructions, of the output device.
Can't answer or hang up calls	Some mobile devices will not support hands-free functions. Please check your phone's user guide.
Can't connect to two Bluetooth devices simultaneously	The speaker does not support connection of more than one output device at a time.
Can't connect wirelessly	Make sure your phone or other device is in the Bluetooth mode. See the "PAIRING" section of this manual. Make sure the speaker is within 30 feet, without obstructions, of the output device.
Hear a crackling noise or interference	Bluetooth is a wireless radio technology. Walls or large objects between the speaker and output device may interfere with the transmission. Make sure the speaker is within 30 feet, without obstructions, of the output device.

PRECAUTIONS

Always store the unit with the power off.

Avoid storing in places that are subject to extreme temperatures or high humidity.

Store in well-ventilated areas.

Make sure to recharge the battery if the unit is not in operation for a long period.

Keep the unit away from dirt, dust and liquids.

Do not attempt to open the unit up.

Do not immerse the unit in water or other liquid.

Keep the unit away from children.

NOTE: This equipment has been tested and found to comply with the limits for a

Class B digital device, pursuant to part 15 of the FCC Rules. These limits are

designed to provide reasonable protection against harmful interference in a

residential installation. This equipment generates uses and can radiate radio

frequency energy and, if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this

equipment does cause harmful interference to radio or television reception, which

can be determined by turning the equipment off and on, the user is encouraged to

try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the

receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment. This device complies with Part

15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may

cause undesired operation.
