

## FRONT VIEW

Showing the array of LEDs; also infrared receiver to the right of the word 'Help' (used when the device is operated by a keyfob).

Bottom, front, and non-connector end.

Top, connector-end and rear (see also 'ScanMonkey product labels').

The only access to the circuit is:

3 buttons:

- Setups
- Help
- Test

2 connectors:

- Plug-in switch
- USB (5VDC from and commands to the computing-device)
