Photo 9: Front View	Photo 10: Back View
 Two white, cylindrical electronic components are shown from the front. They are positioned vertically on a blue surface. A ruler is placed horizontally below them, showing a scale from 0 to 10 mm. The components have a small, circular feature on their front face. Wires are visible extending from the bottom of each component.	 The same two white electronic components are shown from the back. The back view reveals internal electronic components, including a small circuit board and various colored wires (red, green, blue, yellow) extending from the bottom. A ruler is placed horizontally below them, showing a scale from 0 to 10 mm.
