

5 SAFETY AND RECYCLING

5.1 Safety

5.1.1 Laser Compliance:

The lasers used for the manufacture of laser laser guns are class 2 (class two), this means that the maximum output power of 1 mW (a milli-watt) is in accordance with international standards (see EC DECLARATION OF CONFORMITY and FCC , IC CONFORMITY).

The production cycle is as follows:

- Verification for each laser for the 1 mW power, upon delivery of the laser by our supplier.
- Mounting laser laser guns.
- Check for each end-product the power produced by the laser.

A file contains the statements of measurements:

At the end of the production cycle (all devices).

Each year (all devices).

- During a maintenance (equipment concerned).

Note:

A certificate of laser conformity is provided and renewed each year for every center belonging to Laser Game Evolution network to inform and reassure our customers with regard to compliance with the current standards.

5.1.2 Low voltage standard:

The vest is powered by an AC / DC power (see EC DECLARATION OF CONFORMITY AND FCC, IC CONFORMITY).

In case of battery failure it must be replaced with a same type battery and

exclusively provided by LASER GAME EQUIPEMENT.

There is a risk of explosion if battery is replaced by an incorrect battery type.

Specifications:

Caractéristiques techniques :

- Battery Li-Po 7,2V 10 Ah .
- Battery Charger Li-Po 8,4V 2,7A

5.2 Recycling:

Professionals generating electrical waste and electronic equipment are now responsible for their disposal.

LV3 Li-Po Battery:

defective battery must be returned to LGE, who will in turn send them back to the supplier.

Accordance with the ROHS European directive(see EC DECLARATION OF CONFORMITY).

Changes or modifications not expressly approved by Laser Game Equipement could void the user's authority to operate the equipment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC and Industry Canada RF radiation exposure limits set forth for general population (uncontrolled exposure). This device must not be collocated or operating in conjunction with any other antenna or transmitter.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ATTENTION

IL Y A RISQUE D'EXPLOSION SI LA BATTERIE EST REMPLACÉE PAR UNE BATTERIE DE TYPE INCORRECT.

METTRE AU REBUT LES BATTERIES USAGÉES CONFORMÉMENT AUX RÉGLEMENTS EN VIGUEUR.

CAUTION

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
