

A photograph showing a Raspberry Pi 4 (black) connected to a white USB-C hub. The hub is plugged into a power source (a white power adapter) which is plugged into a wall outlet. The setup is on a wooden table. A black cable connects the Raspberry Pi to the hub, and another black cable connects the hub to the power source. A white cable is also visible, connected to the hub.

3. Radiated emission (9KHz-30MHz)

4. Radiated emission (30MHz-1GHz)

5. Radiated emission (above 1GHz)

6. RF measurement setup

(Bluetooth BR+EDR)
