Ref: Attestation Statements Part 2.911(d)(5)(i) Filing
FCC ID: 2ACCJB241

I hope this email finds you well.

I am writing to address the recent feedback from the FCC regarding the Attestation Statements for our device, specifically in relation to the Covered List requirements concerning cybersecurity and antivirus software produced by Kaspersky Lab, Inc.

As per the updated Attestation Statement 2.911(d)(5)(i) and the FCC Report and Order FCC-22-84, we have carefully reviewed the requirements and our device's specifications. We understand that the device in question is a tablet, which has the capability to connect to the internet and possesses sufficient storage capacity to save and run software. Given these characteristics, it is clear that our device cannot be considered "Inherently Compliant" with the Covered List requirements.

Therefore, we, (TCL Communication Ltd.) certifies that the equipment for which authorization is sought does not include cybersecurity or anti-virus software produced or provided by Kaspersky Lab, Inc. or any of its successors and assignees, including equipment with integrated Kaspersky Lab, Inc. (or any of its successors and assignees) cybersecurity or anti-virus software pursuant to DA-24-886 and KDB 986446 D01 Covered Equipment Guidance section B(2a).

Thank you for your understanding and cooperation. If you have any further questions or require additional information, please do not hesitate to contact us.

Best regards,
