

Declaration Letter

We, TCL Communication Ltd., attest that this device under FCC ID: 2ACCJH188 complies with device protocol requirements and operational restrictions: Indoor Clinet for 6XD.

- a. this device will only associate and connect with a low-power indoor Access Point or subordinate device, and never directly link to any other client devices
- b. this device will always initiate transmission under the control of a low power indoor AP or subordinate except access point for brief communications before joining a network. These quick messages will only occur if the 987594 D01 U-NII 6GHz General Requirements v03r01 client has detected an indoor AP, or subordinate, operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
- c. this device, when associated and connected with a low-power indoor access point, or subordinate access point device, will operate at a power lower as advertised by the indoor access point or subordinate access point:
 - i. lower than or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC certificate for clients associated with indoor clients or subordinates.
 - ii. We acknowledging the device is prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,

Company:
