Fisker X297 User Guide

Steering Wheel Media Controls

The left steering wheel controls relate to media, audio, and voice commands.

1. Voice Assistant. See [Voice Assistant, page 20](#).
2. Forward/Next
3. Back/Previous
4. Telephone control. See [Making and Receiving Phone Calls, page 13](#).
5. Volume control
Scroll up/down to control media volume. Press to mute/unmute.

Media and Audio Overview

On the Central Touchscreen, select .

From the main **Music** menu, press to select between **Radio**, **Bluetooth**, or streaming audio services, allowing you to directly control and personalize your apps.

Note: Many third-party media applications require a data connection and login information, and some services are subscription-based. Refer to the provider for more information.

The player for selected media appears at the bottom of the Central Touchscreen.

Searching media content

Most music applications have a

 **Search** bar you can use to find specific content. The on-screen keyboard will automatically appear when you tap in the  **Search** bar field.

Adding to Favorites

Press the  icon next to a song or station to add it to your **Favorites** list for that audio application.

Media and Audio

Radio

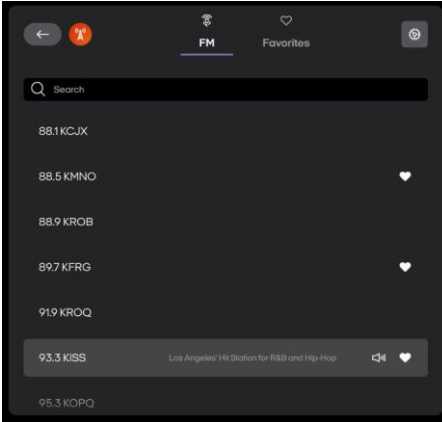

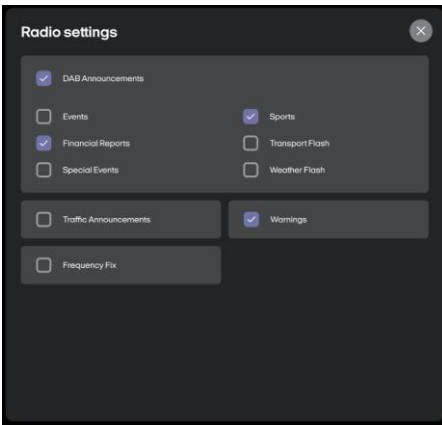

Image to be updated; DAB missing

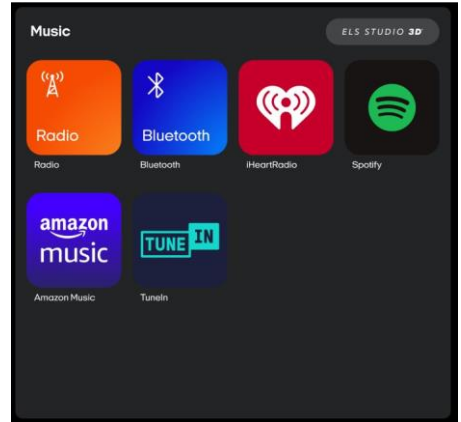

Choose between **FM** and **DAB** (Digital Audio Broadcasting) radio, or select Favorites to access your personalized list.

Radio settings

Press  in the upper right corner of the **Radio** screen to access DAB settings and customize your preferences.

Audio Streaming Services Integration

On the Central Touchscreen, ## for a list of available third-party media.

Note: Many third-party media applications require a data connection and login information, and some services are subscription-based. Refer to the provider for more information.

Playing Media from Devices

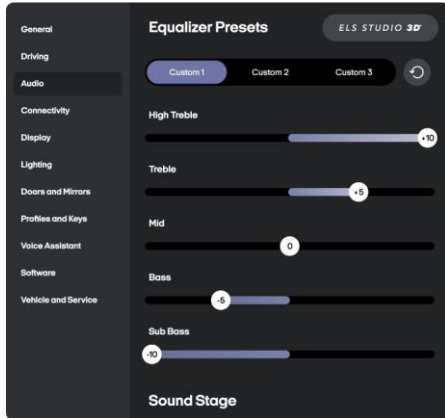

The infotainment system can also play media from devices connected to your vehicle via USB or paired via Bluetooth® (see [Pairing a Bluetooth® Device, page 9](#)).

Select **Bluetooth** to browse to your connected device, then press it to open options.

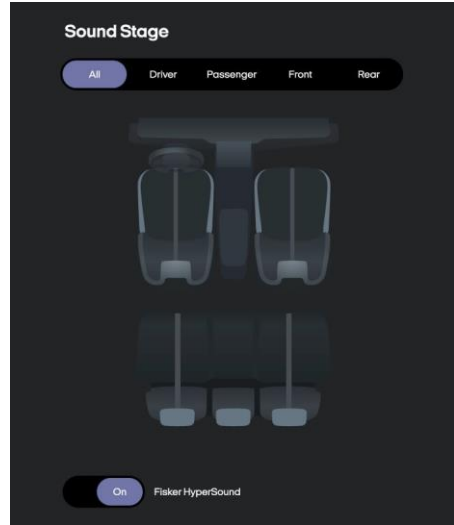

Maps and Navigation

Audio Settings

On the Central Touchscreen, select  > Audio to access your vehicle's audio settings.

Select from three customized **Equalizer Presets**, then touch and drag the slider to adjust a setting.

Swipe up on the screen to scroll down and access **Sound Stage**. From here, you can select the area where you wish to direct the sound system output.

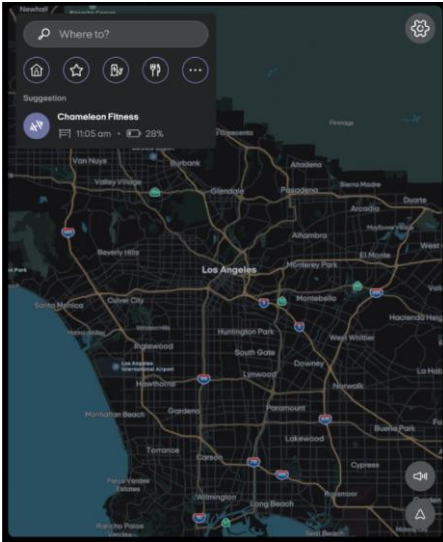

If equipped, you can also press to turn **3D Sound Expansion On or Off**.

Maps and Navigation

Navigation Overview

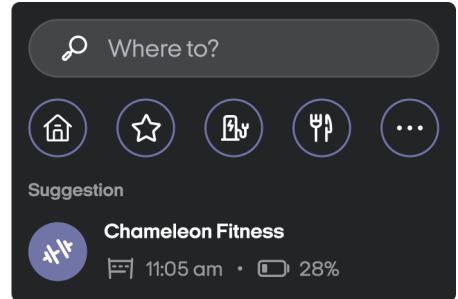

To access maps and navigation, select

 on the Central Touchscreen.

This screen will display your current location on the map whenever a data connection is present. See [Connectivity, page 17](#).

Navigating

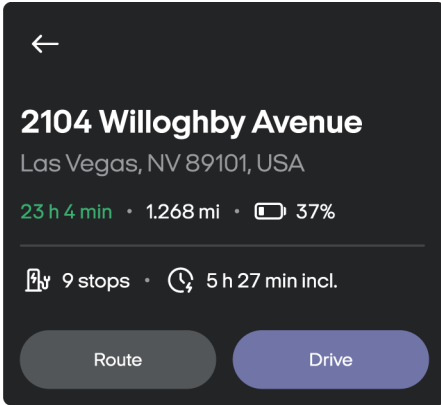

To navigate to a location, you can select a destination in several ways:

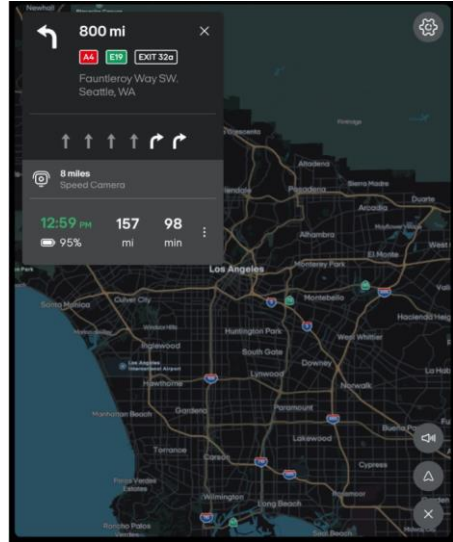

- Tap in the search field to bring up the on-screen keyboard and enter an address.
- Tap on the map to select a location.
- Tap  to select your Home location. See [Setting Home and Favorite Destinations, page 7](#).
- Tap  to select a location from your Favorites list. See [Setting Home and Favorite Destinations, page 7](#).
- Tap  to locate nearby charging stations.
- Tap  for a listing of nearby food and drink locations.

Maps and Navigation

Adjusting the Map

When you select a location, you can press **Route** to view or modify the route, and press **Drive** when you are ready to begin navigating.

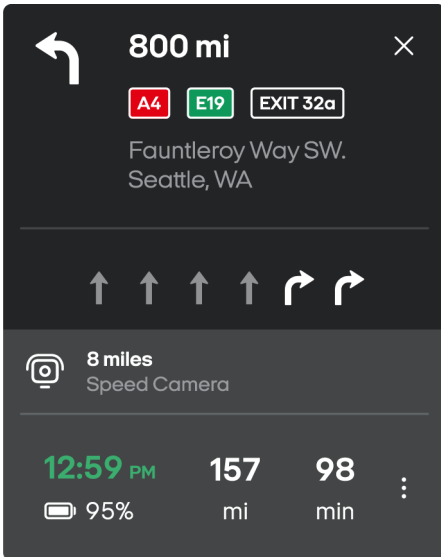

The map centers around your current location by default.

The map can be rotated, panned, or zoomed in and out via the Central Touchscreen.

Use the icons around the map as follows:

- Tap  to open navigation settings. See [Navigation Settings, page 7](#).
- Tap  to mute/unmute audible navigation directions.
- Any time the map is manipulated, tap  to return to your current position.
- Tap  to stop navigating.

At this point, audible and visual turn-by-turn navigation begins, and is displayed both on the Central Touchscreen (as shown above) and on the Driver Display (see [Driver Display Overview](#)).

Maps and Navigation

Setting Home and Favorite Destinations

Common destinations such as your [Home](#) or [Workplace](#) can be designated accordingly in the system, allowing you quick access within the Navigation menus.

More info needed from Fisker

Offline Mode

When your vehicle does not have an available wireless internet connection, the navigation system will pull from any existing map data that was previously downloaded. Any resulting information displayed will not include live traffic conditions.

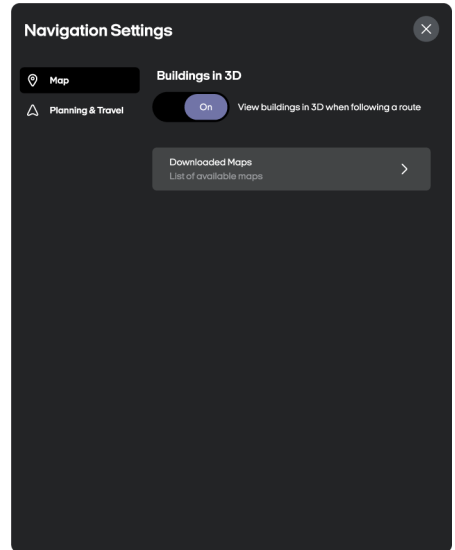

Map Updates

When a data connection is present, updated maps are automatically downloaded to your vehicle via [an OTA map update](#). To ensure your system has the latest information, make sure your vehicle is regularly connected to a network. See [Connectivity, page 17](#).

Navigation Settings

Tap  on the Navigation screen for options:

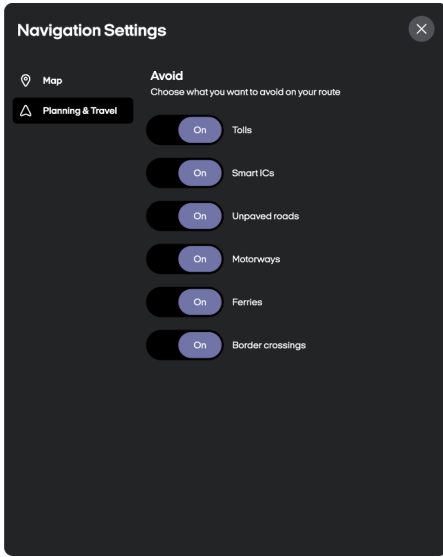

Map settings

- **Buildings in 3D:** Tap to toggle **On** or **Off**.
- **Downloaded Maps:** Tap to view the list of maps downloaded to your vehicle.

Maps and Navigation

Planning & Travel settings

Use this menu to select features you wish to avoid on your route.

Phone and Smart Devices

Bluetooth® Compatibility

When in operating range, you can pair a Bluetooth®-capable phone with your vehicle for hands-free use. Bluetooth® usually supports a wireless connection of approximately 30 feet (9 m), although range can vary based on atmospheric conditions and the device used.

To use your phone with the vehicle, you must pair it first. See [Pairing a Bluetooth® Device, page 9](#).

Up to ten devices can be paired to the vehicle, and two devices can be connected simultaneously. For example, if you own one phone for personal use and another for work, you can connect both to your vehicle and send or receive hands-free calls from either one.

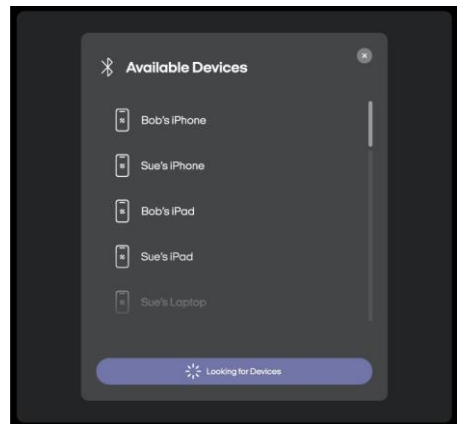

Note: Other Bluetooth®-capable devices can also be paired to your vehicle for use, such as an iPad or Android tablet.

Pairing a Bluetooth® Device

Pairing a phone to your vehicle enables you to place and receive hands-free calls, and to access your phone's contacts, messages, and recent call list. Once a phone is paired to the vehicle, it will automatically connect whenever it is in range.

To pair a device, have it with you in the vehicle and ensure it has Bluetooth® enabled, then follow these steps:

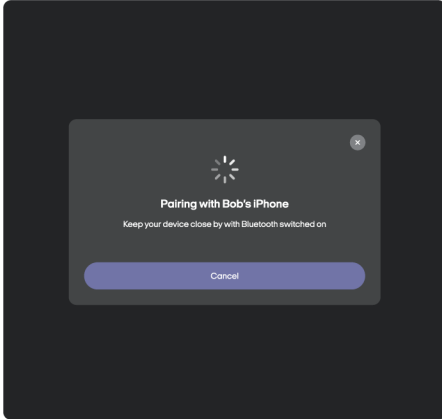

1. Ensure that the device to be paired is in hand, powered on, and has Bluetooth® enabled.
2. On the Central Touchscreen, tap  > **Connectivity**.
3. Set **Bluetooth** to On, then tap **Available Devices**.

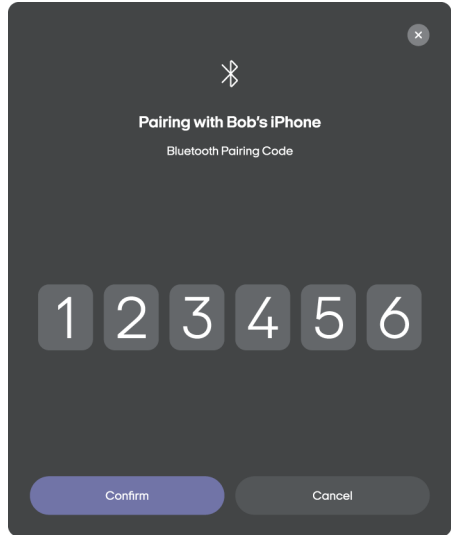

4. The system will scan for Bluetooth®-enabled discoverable devices in range. Tap your device's name when it appears.

Phone and Smart Devices

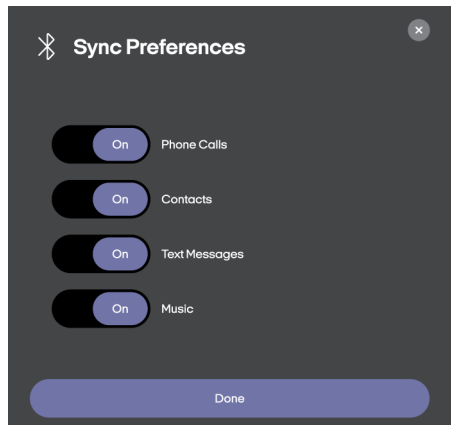

*Note: If your device's name does not appear when the scan has completed, check that the conditions in step 1 are met and press **Scan for Device** to scan again.*

- When the pairing process begins, you will be prompted as shown.

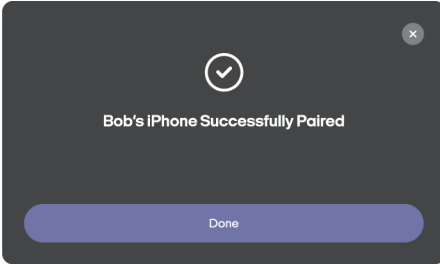

- Compare the six-digit pairing codes displayed on your device and on the Central Touchscreen. If they match, tap **Confirm** to continue.

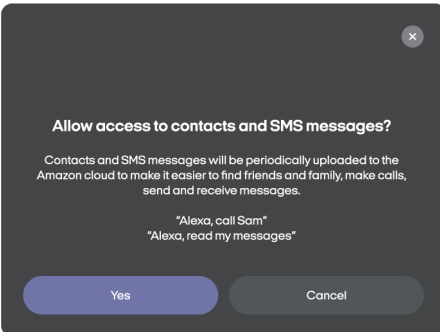

- Tap to toggle On/Off your sync preferences, then tap **Done** to continue.

Phone and Smart Devices

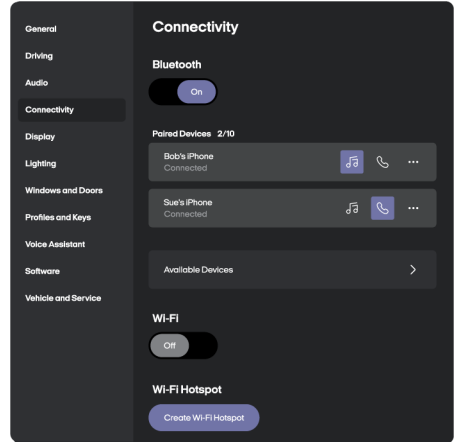

Note: These settings can be updated later if you wish to change them. See [Device Syncing and Preferences](#), page 12.

8. Tap **Done** when pairing is successful.

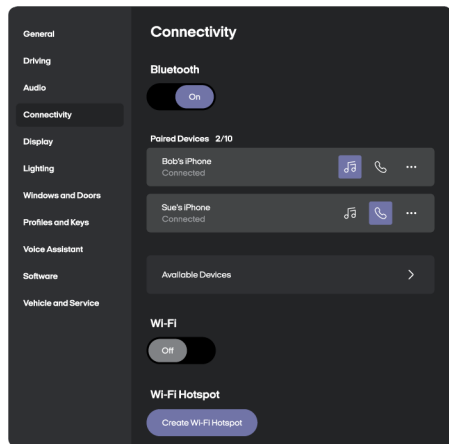

9. Tap **Yes** if you wish to allow Alexa access to your device's contacts and SMS messages, or **Cancel** to disallow and continue.

10. When pairing setup is completed, your device's name will appear under **Paired Devices** on the Connectivity screen.

Phone and Smart Devices

Device Syncing and Preferences

Under > **Connectivity**, you can edit your preferences for devices listed under **Paired Devices**.

Tap or next to a device to receive phone calls and/or audio from that device through your vehicle.

Tap to access more options:

- **Sync Preferences:** Tap to turn that device's sync options (**Phone Calls**, **Contacts**, **Text Messages**, and **Music**) On or Off.
- **Disconnect:** See [Connecting and Disconnecting Bluetooth® Devices, page 12](#).
- **Unpair:** See [Unpairing a Bluetooth® Device, page 12](#).
- **Rename:** Tap to edit the name of the device as it appears on the Central Touchscreen.

Connecting and Disconnecting Bluetooth® Devices

When a paired phone enters or exits the range of your vehicle, it will connect or disconnect automatically. If you wish to connect to a different paired device:

1. Select > **Connectivity**.
2. Tap next to the device you wish to connect or disconnect.
3. Tap **Connect** or **Disconnect**.

Unpairing a Bluetooth® Device

If you no longer wish to use a device with the vehicle:

1. Select > **Connectivity**.
2. Tap next to the device you wish to unpair.
3. Tap **Unpair**.
4. At the prompt, tap **Yes** to confirm unpairing, or **Cancel** to return to the **Connectivity** screen.

Phone and Smart Devices

Using the Phone App

⚠️ WARNING: Distracted driving can lead to loss of vehicle control and a collision, which can result in serious injury or death. Fisker strongly recommends that the driver stay focused on the road at all times while driving. Safe operation of the vehicle is the driver's primary responsibility.

⚠️ WARNING: Always ensure you are following all applicable local laws regarding the use of phones while driving. This includes, but is not limited to, laws that prohibit texting and require hands-free phone operation at all times.

Tap  on the Central Touchscreen to access your connected phone.

From here, you can select from the following options:

- **Recents:** View a list of recent calls to and from a synced phone. Tap a listing to initiate a call.
- **Contacts:** View a synced device's contact list. Tap a contact to view their information.
- **Keypad:** Open the keypad to make manual calls.

Making a Phone Call

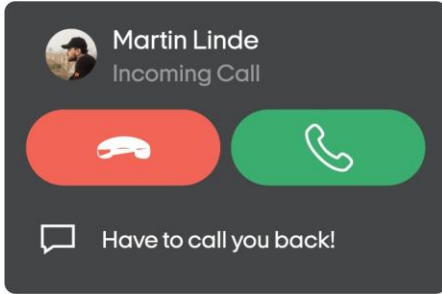

Initiate a call via any of the following options:

- Select from your **Contacts** list and tap the phone number you wish to call.
- Open the **Keypad** and dial the number you wish to call.
- If Voice Assistant is enabled, you can say, "Alexa, call [name of contact]," and Alexa places the call. See [Voice Assistant, page 20](#).

Note: If it is safe and legal to do so, you may also make a call using the phone you have paired to your vehicle.

Phone and Smart Devices

Receiving a Phone Call

Incoming calls display an alert in the Notification Center on the Central Touchscreen. If your phone contacts have been synced to the vehicle, any contact information for that caller will be displayed. See [Device Syncing and Preferences, page 12](#).

- Press to  decline or  accept the call.
- Press the pre-set message to text a reply to that contact.
- Press the  button on the left steering wheel controls to accept the call.

Note: Your phone may prompt you to select the audio output for the call, depending on the type of phone and last output used.

In-Call Options

During an active call:

- Press to  unmute or  mute.
- Press  to access the keypad.

You can also use the left steering wheel controls:

- Scroll the dial to adjust the call volume, or press to mute/unmute.
- Press the  button to end the call.

If a call is placed on hold and a second call is made, press  to switch between callers.

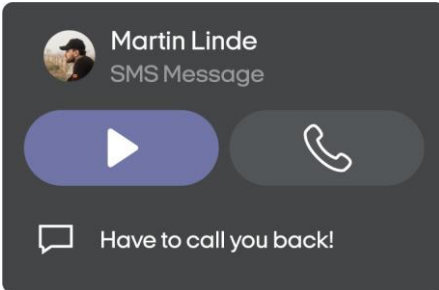

Phone and Smart Devices

Using Messages

⚠️ WARNING: Distracted driving can lead to loss of vehicle control and a collision, which can result in serious injury or death. Fisker strongly recommends that the driver stay focused on the road at all times while driving. Safe operation of the vehicle is the driver's primary responsibility.

⚠️ WARNING: Always ensure you are following all applicable local laws regarding the use of phones while driving. This includes, but is not limited to, laws that prohibit texting and require hands-free phone operation at all times.

- Press the pre-set message to text a reply to that contact.

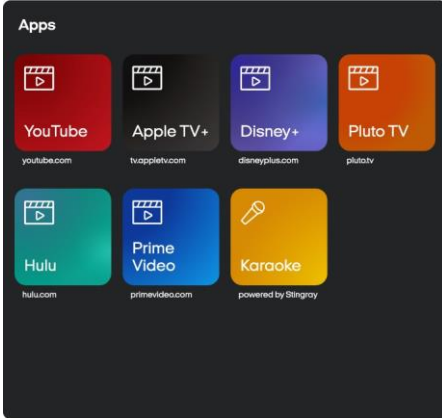

Incoming messages display an alert in the Notification Center on the Central Touchscreen. If your phone contacts have been synced to the vehicle, any applicable contact information will be displayed. See [Device Syncing and Preferences, page 12](#).

- Press the play button to have the message read aloud. The button will toggle to pause if you wish to stop playback.
- Press  if you wish to call that contact.

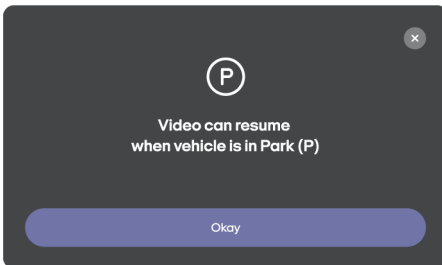

Apps

On the Central Touchscreen, select  to view available apps.

Select your preferred streaming service to get started.

Note: Login information and streaming service subscriptions are required for some apps.

Note: Video streaming is only available when the gear is in P (Park). If another gear is selected, the video will pause until P (Park) is selected.

Cellular Connection

Your vehicle has a built-in cellular connection to provide access to data services when not on Wi-Fi.

Your phone and vehicle must be actively connected to cellular service to allow the Fisker App to communicate with your vehicle.

Add a Wi-Fi Network

Your vehicle can be connected to a Wi-Fi network in order to send and receive data, which is often faster than cellular networks.

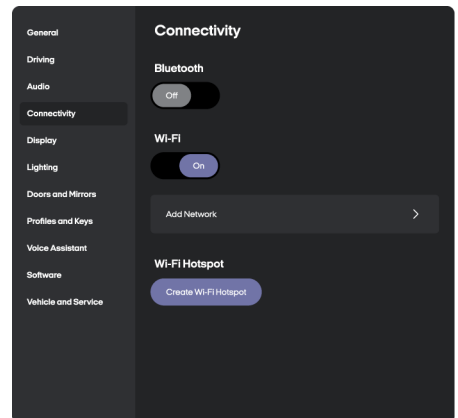

[Recommendation: Enrollment into the Connected Service is required for the vehicles data services.](#)

Fisker recommends leaving Wi-Fi enabled and connected to a network whenever possible, so as to receive software updates in a timely manner. See [Software Updates, page 23](#).

To add a new Wi-Fi network:

1. On the Central Touchscreen, select

 > **Connectivity**.

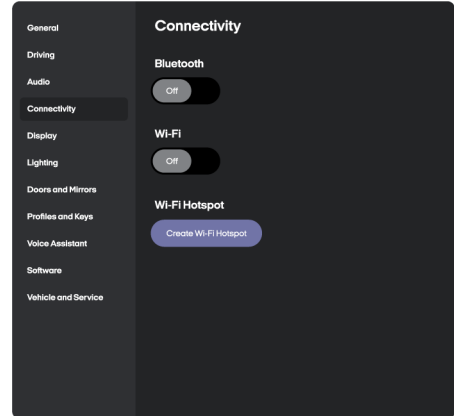

2. Ensure **Wi-Fi** is **On**, then tap **Add Network**.

Using Your Vehicle as a Hotspot

You can set up a password-protected Wi-Fi hotspot on your vehicle so that other devices can use its data connection.

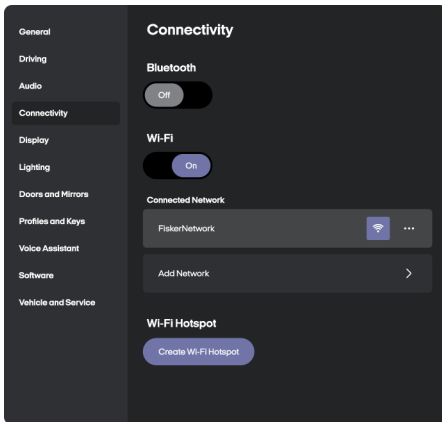

Creating a hotspot

- At the prompt, enter the network name (SSID) and password.

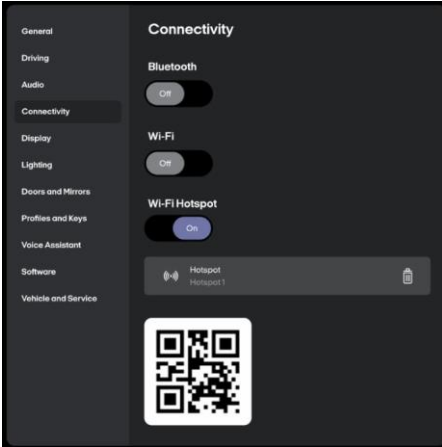

- On the Central Touchscreen, select  > **Connectivity** and tap **Create Wi-Fi Hotspot**.

- If the connection succeeds, the network name appears under **Wi-Fi**.

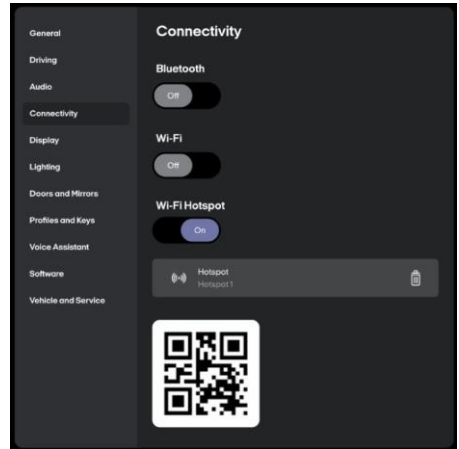

- Enter a name for the hotspot and a password of your choosing, then press **Create**.

Note: Passwords must be at least eight characters, with one uppercase and one lowercase letter, one number, and one special character.

3. The new hotspot will appear in the **Wi-Fi Hotspot** list.

Using a hotspot

On the **Connectivity** screen, you can tap to turn the hotspot **On** or **Off**.

To connect a device to the vehicle, you can manually enter the hotspot name and password on the device, or scan the QR code displayed on the Central Touchscreen.

Deleting a hotspot

To delete an existing hotspot, tap the  icon next to its name and confirm when prompted.

Voice Assistant

About Alexa

Alexa is a cloud-based voice service that can help you with tasks, entertainment, general information, and more. Alexa is often personified as “her” or “she.”

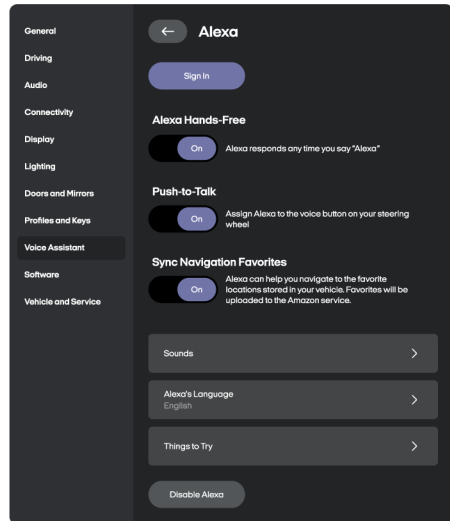

Whether you’re at home or on the go, Alexa is designed to make your life easier by letting you voice control your world. Using Alexa is as simple as asking a question. Just ask her to play music, read the news, control your smart home, tell a joke, and more... Alexa is happy to help.

Alexa is integrated into your vehicle, and can be used when you sign in with your Amazon account

Alexa, Amazon Echo, Amazon, and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates.

Alexa Settings

Select  > **Voice Assistant** to access settings.

From here, you can **Sign In** to Alexa and customize your experience.

In addition to using voice commands, you can also enable **Push-to-Talk**, allowing you to activate Alexa by pressing a button on the steering wheel. See [Steering Wheel Media Controls, page 1](#).

For examples of available voice commands, press **Things to Try**.

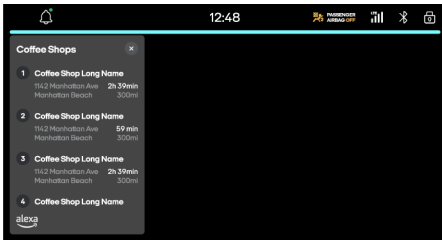

Voice Assistant

Using Alexa

Alexa's status is indicated by the colored bar running along the top of the Central Touchscreen.

A blue bar with a cyan highlight indicates that Alexa is available. The cyan highlight animates when Alexa is listening or thinking.

When Alexa speaks, the bar will brighten to cyan. Any answers or options that she may display will appear in the Notification Area.

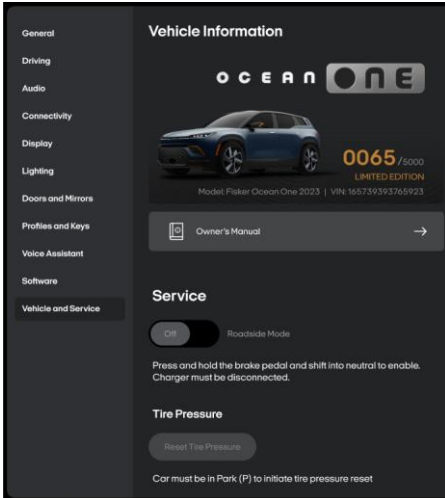

A red bar indicates that Alexa is disabled or an error has occurred. Ensure that Alexa is enabled under  > **Voice Assistant**. Contact Fisker if errors persist.

Using Smart Home Devices with Your Vehicle

If you use Amazon Echo smart home devices, these can be accessed via your vehicle when you are signed into Alexa and have an active data connection across devices. See [Connectivity, page 17](#).

Vehicle Information

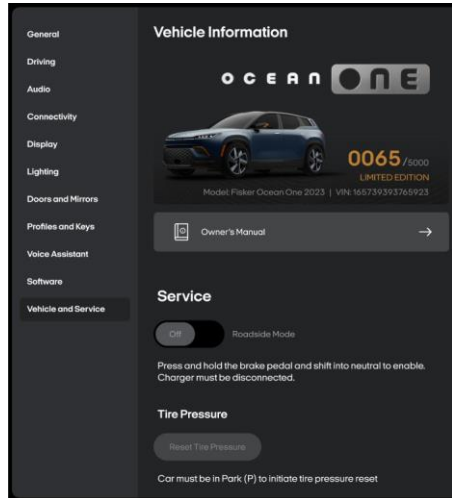

Viewing Vehicle Information

On the Central Touchscreen, select  > **Vehicle and Service** to view your vehicle's model name, model year, edition number, and Vehicle Identification Number (VIN).

For additional VIN locations, see [Vehicle Identification Number](#).

Direct Access: Owner's Manual

On the Central Touchscreen, select  > **Vehicle and Service**, then tap **Owner's Manual** to view.

This manual is saved to your vehicle and can be viewed offline. It is recommended that you keep Wi-Fi connected when viewing in order to receive the latest version of this manual.

Note: The Owner's Manual can also be viewed within the Fisker App and on the Fisker website.

Software Updates

Over-the-Air Updates

Your vehicle supports wireless software updates, giving you continued access to new features and improvements. Fisker recommends installing these updates as soon as they become available.

Prerequisites for updates

- Your vehicle must be shifted into **P (Park)** before starting an update.
- Because some updates can take a few hours to install, the vehicle battery must be charged to at least 30% before installation. See [Charging the Vehicle](#).

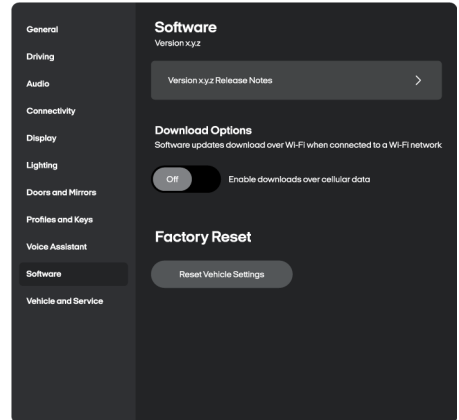

Note: Charging is paused during the update installation process.

- Ensure that your vehicle has an internet connection with a strong signal in order to receive updates quickly and uninterrupted. See [Connectivity, page 17](#).
- All occupants must exit the vehicle and lock the doors before the update begins.
- During the update, the vehicle and door locks will be inoperable, and the gear selection will be locked in **P (Park)**.

Note: In an emergency, pull twice on an interior door handle to unlock that door.

Downloading over cellular data

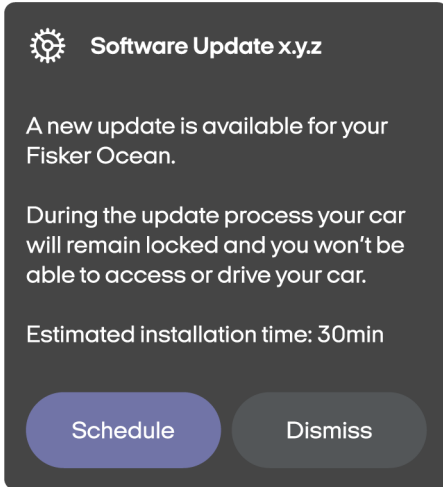

If your vehicle will not be within range of a Wi-Fi network at the time of an update, you can opt to use the vehicle's cellular data.

Select  > **Software** on the Central Touchscreen. Under Download Options, press to turn cellular data usage for software downloads **On** or **Off**.

Software Updates

Update notifications

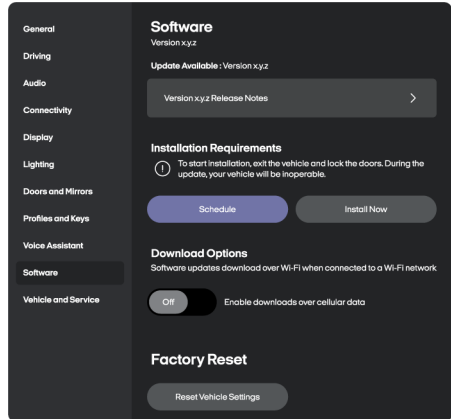

When a software update becomes available, a notification appears on the Central Touchscreen.

Press to **Schedule** the update, or tap **Dismiss** to schedule at a later time.

Note: Ensure that all update prerequisites will be met at the scheduled time.

View available updates

On the Central Touchscreen, select  > **Software**. If a software update is available, the update information and estimated installation time will be displayed here.

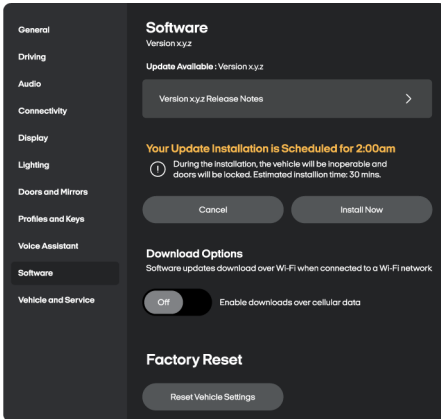

Tap **Schedule** to schedule the update at a later time.

Note: Ensure that all update prerequisites will be met at the scheduled time.

Tap **Install Now** to begin the update if you are ready and update prerequisites have been met.

Software Updates

View scheduled updates

When **Schedule** is selected from the update notification or the  > **Software** screen, you can view the scheduled installation time under **Software**, along with the estimated installation time.

From here, you have the option to **Cancel** the scheduled installation, or tap **Install Now** to begin.

Install an update

When a scheduled update begins or you press **Install Now** on the Central Touchscreen, the installation will start five minutes after all occupants have exited the vehicle and the doors are locked.

Note: If an update fails to install, a notification will display on the Central Touchscreen.

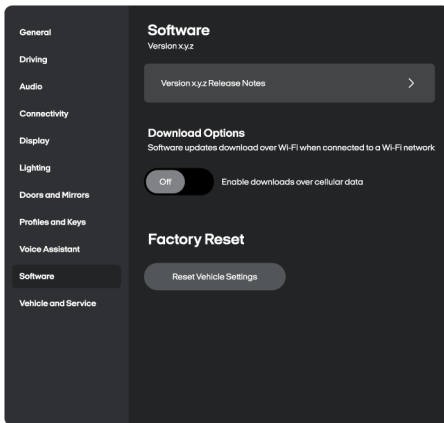

- If a failure was due to a prerequisite not being met (e.g., battery state of charge was at less than ##%), resolve the issue and try installing again.
- If a failure was due to another reason, contact a Fisker Service Center for assistance.

Software Updates

Viewing Release Notes

Fisker strongly recommends that all users read the release notes for every software update. They can contain important information about your vehicle, including safety information or new operating instructions.

Release notes can be viewed before and after a software update:

On the Central Touchscreen, select  > **Software**, then tap the **Release Notes** button to view the release notes.

1.1 Declaration of Conformity(DoC)

Български [Bulgarian]:	С настоящото Harman Automotive Electronic Systems (Suzhou) Co., Ltd декларира, че този тип радиосъоръжение X297 е в съответствие с Директива 2014/53/ЕС. Цялостният текст на ЕС декларацията за съответствие може да се намери на следния интернет адрес: (*1)

1.3 FCC statements

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

1.4 Canada ISED

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

- i. the device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
- i. les dispositifs fonctionnant dans la bande de 5 150 à 5 250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20cm de distance entre la source de rayonnement et votre corps.

1.5 South Korea

User manual in Korean language is mandatory.

According to Annex 4 of the 'RRA - Notice on Conformity Assessment of Broadcasting and Communications Equipment', the User Manual should include an overview of the equipment, specifications, configuration and operation methods of the device.

1.6 Taiwan Statement

本產品符合低功率電波輻射性電機管理辦法 第十二條、第十四條等條文規定

1. 經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自更頻率、加大功率或變更原設計之特性及功能。

Low Power radio frequency electric machinery was qualified by Type Approval, not get permission from authority; the company, business or user can't arbitrarily change frequency, increase power or modify feature or function of original design.

2. 低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前項合法通信，指依電信法規定作業之無線電通信。

低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

Use of low power radio frequency electric machinery can't affect flight safety and interfere with legal communication; once discover the interfered phenomenon, it should stop immediately and improve to no interference and then could continue to use.

The preceding legal communication is radio communication which follows Telecommunication Act to operate.

Low power radio frequency electric machinery must tolerate interference from legal communication or electric machinery apparatus of industry, science and medical radiation.

Draft list of restricted substances @Harman input

設備名稱：Infotainment Headunit Equipment name		型號（型式）：X297 Type designation (Type)				
單元 Unit	限用物質及其化學符號 Restricted substances and its chemical symbols					
	鉛 Lead (Pb)	汞 Mercury (Hg)	鎘 Cadmium (Cd)	六價鉻 Hexavalent chromium	多溴聯苯 Polybrominated biphenyls (PBB)	多溴二苯醚 Polybrominated diphenyl ethers (PBDE)

Statement

				(Cr ⁺⁶)		
TOP HOUSING 上蓋	-	○	○	○	○	○
PCBA 電路板	-	○	○	○	○	○
BOTTOM COVER 下蓋	-	○	○	○	○	○
CONNECTOR 連接器	○	○	○	○	○	○
THERMAL PAD 散熱片	○	○	○	○	○	○
REAR COVER 後蓋	○	○	○	○	○	○
SCREW 螺絲	○	○	○	○	○	○
LABEL 標籤	○	○	○	○	○	○

備考1. “超出0.1 wt %” 及 “超出0.01 wt %” 係指限用物質之百分比含量超出百分比含量基準值。

Note 1: “Exceeding 0.1 wt %” and “exceeding 0.01 wt %” indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition.

備考2. “○” 係指該項限用物質之百分比含量未超出百分比含量基準值。

Note 2: “○” indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence.

備考3. “-” 係指該項限用物質為排除項目。

Note 3: The “-” indicates that the restricted substance corresponds to the exemption.

1.7 Brazil

Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados - Para maiores informações: www.anatel.gov.br

1.8 Mexico

“La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.”

1.9 Thailand

Following statement may be displayed on packaging or additional page or on user's manual. For Sdoc, it is optional to display this wording.

“เครื่องโทรคมนาคมและอุปกรณ์นี้มีความสอดคล้องตามมาตรฐานหรือข้อกำหนดทางเทคนิคของ กสทช.”

This telecommunication equipment conforms to the technical standards or requirements of NBTC.

Below label shall be printed on user manual, shown on packaging, or provided as additional sheet put inside packaging.

(Translation of content: This radiocommunication equipment is exempted to possess license, user license, or radiocommunication station license as per NBTC notification regarding radiocommunication equipment and radiocommunication station has been exempted for license according to radio communication act B.E.2498)

Additional marking for 5 GHz indoor products

For products using frequencies within 5.15-5.35 GHz, please additionally print the following **warning text** "5GHz product for indoor use only" on your product::

電波法により5GHz帯は屋内使用に限ります。

Products using frequencies within 5.47-5.72 GHz may be used indoor and/or outdoor.
