4. Product parameter:

- Product Name: Nut Findmy Finder
- Equipment model: F11X
- Wireless Technology: Bluetooth 5.2
- External basic specifications:
- Style: straight
- Antenna: on board antenna
- Size: length 38.2mm x width 38.2mm x thickness 7.2mm
- Weight: 9.5g
- Design sealing performance: anti splashing water
- SW Version: 1.0.1
- HW Version: 6.1
- Volume: 90-100 dB
- Battery: CR2032 lithium battery, 230mah / 3.0V, Replaceable

- Standby Time For One Battery: 8-10 Month
- Shell Material: PC, TPU
- BLE basic performance:
- Chip supplier: Nordic
- Model: 52832
- The transmitter frequency range: 2.4 ~ 2.48 GHz;
- The frequency range of receiver: 2.4 ~ 2.48 GHz
- Receiving sensitivity: - 93dbm
- Working environment: - 10 °C ~ 60°C
- Humidity: 35 ~ 45 %RH
- Connection range: 10-20 meters indoors; 20-50 meters outdoors
- Package Details
- SIZE: length 126mm x width 114mm x thickness 12mm
- Content: Tag *1 (including 1 CR2032 Battery), Backup Battery(CR2032)*1, Double Sided Tape*1, QSG*1

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that

interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The device has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition without restriction
