

Smart PIR Motion Detector

WL-ZSPWBPW-PI11-01

User Manual

Federal Communications Commission (FCC) Compliance Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Federal Communications Commission (FCC) Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Federal Communications Commission (FCC) Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20cm during normal operation.

Function Illustration

Features

- Realize remote monitoring and management via APP Client.
- In the state of “Armed” , when motion is detected in detection area, the mobile smart terminal would receive alarm notifications immediately. This product could also interwork with security devices to secure your home in all aspect.
- Wireless alarm notification, quick response, robust to interference, low false alarm rate.
- Self-adjustment to sensitivity in case of environment temperature change.
- Wide detection range, adjustable detection angle, which could be adjusted easily and conveniently.

Installation Steps

Note: it is recommended to install this product 2.4m to 5m above ground.

Option A: Place it on any fixed flat surface

Option B: Wall/Ceiling-mounted

Step One: Mount two expansion plugs on the desired location of the wall/ceilings. Then fix the base with the self-tapping screws.

Step Two: Open the cell cover and put in a CR2 battery.
