

Post-grant Confidentiality Letter

Dear ITS officer:

We find our new product FCC ID 2ADQC-REMOTE-3S and IC 12567A-REMOTE3S information are being public on website, but we have not started to mass production and sell, this will give our competitors significant competitive advantages in developing similar products and hurt our sale, now we must try our best to reduce the risk and loss.

After tracked the problem with our manufacturing factory and Guangzhou ITS, then we BEDJET company found the root cause is our manufacturing factory gave us incomplete Non-disclosure Agreement, which has been deleted the types of confidentiality and options for us to review and sign.

Statement that applicant BEDJET LLC is aware that the information of ID 2ADQC-REMOTE- 3S and IC 12567A-REMOTE3S have been publicly available since the date of grant. But now we need to correct this mistake to withhold the information is unpublic on website base on our new confidentiality contracts. Please see to attachments.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Aramli".

Mark Aramli
CEO
BEDJET LLC
