## 3 Connection ports

## 4 Connecting the box to TV

### 1. Use a HDMI cable to connect the box to the TV ( recommended)

**B1.** Connect the Direct Vina box to the TV by connecting the HDMI cable to the HDMI-in port on the TV

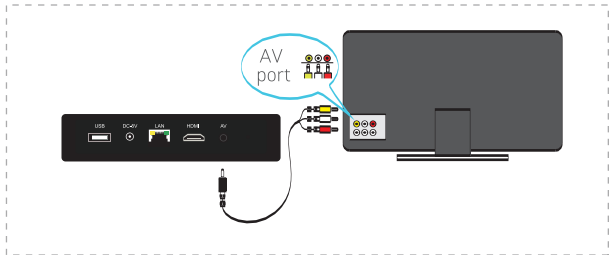

**B2.** Switch the signal source from TV to HDMI

**B3.** Power up the box

【 Note 】 Please note that only perform this task when the box has been powered off. Do not remove the HDMI cable while the box power is on.

### 2. Connecting the box and the TV with the AV cable

**B1.** Connect one end of the AV cable (red, white, yellow) to the AV sockets on the TV. Connect the other end to the Direct Vina box

**B2.** Switch the signal source to AV

**B3.** Power up the box

【 Note 】 Do not connect the HDMI and AV cables to the box simultaneously. If you have not used the HDMI for some time, try to plug in and unplug a couple of times to get better TV signals.

## 5 Connecting the box to the Internet

### 1. LAN Cable connection

Connect the LAN cable with the Direct Vina box. The box will automatically recognize the IP address.

### 2. Wifi connection

**Step 1.** Enter Settings -> Select Wireless Network

**Step 2.** Select Wifi -> Turn on

**Step 3.** Select a Wifi Network

【 Note 】 The LAN connection will not work when you use a Wifi connection
