- Keep your attention on the road and do not operate product while driving

Features

- Input 12V-24V
- FM transmitter: 88.1-107.9 MHz range
- Bluetooth® hands-free call
- Streaming music from smartphone to car audio system via FM transmitting
- Dual USB ports:
 - Quick charging 3.0⁺ / USB flash drive playing
- Supports TF card playing
- Car battery monitor

Specifications

DC input: 12V-24V Bluetooth®: V5.0
Bluetooth® maximum distance: 10 meters/32 feet
USB 1: QC 3.0 5V/2.4A, 9V/2A, 12V/1.5A
USB 2: USB flash drive playing or 1A
FM channels: 88.1 - 107.9Mhz
FM transmitting distance: < 2 meters/6.56 ft
Audio format: MP3, WMA, FLAC, WAV
USB capacity support: 64GB (max)
TF card support: 32GB (max)
Working temperature range: -4F to 104F
Storage temperature range: -40F to 185F

Wireless Transmitter

1. LED display
2. Microphone
3. Previous song
4. Next song
5. Multifunction Knob button: change frequency/volume
+ & - / Call Answer & Hang up
6. USB 1: QC3.0: 5V/2.4A, 9V/2A, 12V/1.5A
7. USB 2: USB flash drive playing

LED Indicator	Status
13.5	Car battery voltage (12-24V)
bt	Bluetooth® is ready to pair
107.6	FM transmitting frequency Range: 88.1-107.9

Installation

- (1) Plug device into your car cigarette lighter socket.

- (2) LED display lights up and shows: 13.5- bt - 107.6

- (3) Bluetooth® connection:

After initial sequence is displayed, the device is ready to pair with voice prompt: "Waiting for connection."

On your smartphone, enable Bluetooth® function, search available devices, select "Just Wireless" and pair. Once connected, there is a voice prompt: "Bluetooth® connection success."

- (4) Turn on FM on your car radio, and find a vacant (unoccupied) channel. Then adjust the frequency on the device to match the frequency on your car radio.

- (5) Adjust the FM transmitter frequency:
Press and hold multifunction knob button until the frequency display flickers, rotate the knob button to adjust the FM transmitting frequency to be the same as your car radio.

Playing Music

Play music from your phone

After steps 1-5, you can start playing on your smart phone, the music will stream by Bluetooth® A2DP function, from your phone via FM transmitting to car radio, and come out from car stereo system.

Play / Pause	Press
Previous / Next track	Press

Play music from your USB flash drive

Plug USB flash drive into the right USB port with "usb" icon. Device will recognize and play automatically.

Play / pause	Press
Previous / Next track	Press
usb	USB flash drive ready to play (when you plug in a USB flash drive)
tf	TF card ready to play (when you insert a TF card)
001	Song 001 playing
Volume(U00-U30)	Rotate

Play music from your TF card

Insert TF card to TF card slot device will start to recognize it with display "tf" and start playing automatically. All operations are same as USB flash drive playing mode. See image following.

How to switch playing among bt - usb - tf
Press "▶▶" and hold until LED displays bt or tf (or usb), then playing will transfer to mode which it shows.

Hands-Free calling

After you get ready for playing, you can also start to use hands-free function.

Answer an incoming call	Press
Reject an incoming call	Press and hold
Hang up a call	Press
Recall last incoming/outgoing call	Quickly press twice

Under music playing status (bt / tf / usb flash drive), if there is a call coming, it will switch to call mode automatically, after hanging up, it will switch back to playing mode automatically.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
