

# multi-function Bluetooth speaker

## Icon and function explanation

- ◆ Bluetooth speaker allows you to enjoy the charm of music anywhere
- ◆ This is modern fashion the appearance of a unique Bluetooth phone hand-free digital audio
- ◆ New miniature aluminum diaphragm speaker clear treble bass pure unique design so sound quality performance plus excellent
- ◆ Integration of new concepts walkman digital audio connect you MP3 / Mp4 / CD / DVD / IPOD / IPHONE / PSP mobile phone computer headset and FM radio function
- ◆ Circular design button curved design a variety of colors highlights the modern style so that you own way
- ◆ battery computer USB adapter DC - 5 power supply so that you can enjoy anytime anywhere music eliminate worry
- ◆ PC USB data download you can enjoy the music anytime anywhere

## Speaker Function Parameters

- ◆ Output Power RMS 3W THD 10%
- ◆ frequency response 150-1800HZ
- ◆ FM frequency range 87.5-108MHZ(+/-3DB)
- ◆ SNR ≥ 90DB
- ◆ speaker 1.58inches(external diameter 40mm)4 ohm\*2
- ◆ storage/ download USB data card direct download no external card reader
- ◆ Bluetooth connection distance ≥25M with the hands-free function
- ◆ power input USB power adapter wiring or 5V-1000MA of the AC power Adapter

  

- ◆ operating instructions
- ◆ battery built-in battery
- ◆ DC-5V DC-5V(0.4-1A)power adapter USB power available
- ◆ Shutdown state charging power indicator is displayed in red  
! REMINDER when the battery charging is completed please unplug the line charge to Not to affect battery life and the danger
- ◆ Tuned charge you can use an adapter to charge normal play music the power indicator is displayed as red use the original USB cable to connect the computer to charge automatically converted to storage capabilities  
(Recommended charging tuned off in order to prolong battery life)
- ◆ download plug TF card the power switch in the ON state the machine

connected

to The computer with a USB data cable the computer default TF card to download

Music to pause playback

◆ in external audio connection the audio signal and the audio input port of the host audio cable connection (line in ) the blue indicator light in the playback

Bluetooth connection

◆ Extremely audio connection mode the audio input port of the host with the audio cable connection (line in) then to enter extremely audio mode Bluetooth connection the power switch in the “ON” state the boot by default in the Bluetooth status mobile phone search new Bluetooth equipment find F-808 new equipment after mating connector when speaker with voice prompts pairing is successful enter Bluetooth playback mode connect the PC to play music with Bluetooth match first make sure the Bluetooth matching drive installation intact open the taskbar Bluetooth device pairing after opening the Bluetooth interface to search for Bluetooth device found F-808 new equipment then double-click pairing device to connect when the speaker and the voice prompts pairing is successful right set the device to play music in Bluetooth and engage in quality audio playback when the player is connected to the phone phone/telephone intervention and music stops directly using a mobile phone to answer can also be used hand-free directly by using the speaker key try to face the speaker speak MIC to hang up press end call key after ending the call music will automatically resume 25M distance from the Bluetooth connection is not lower than in the case without any obstacle

## FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may

cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

## RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
