INSIDE PAGES

Read all safety information below and operating instructions before using the Keyboard to avoid injury and damage to your device, and store them for possible future reference. We assume no responsibility for the damages to your devices due to improper operation of this Wireless Keyboard.

WARNING: Failure to follow these Safety Instructions could result in fire, electric shock, or other injury or damage.

SAFETY INSTRUCTIONS

- Do not let small children play with this product
- Do not expose this product to liquid, moisture or humidity to avoid the product's internal circuit being affected
- Do not use abrasive cleaning solvents to clean the product
- Store the product out of direct sunlight and extreme temperatures (above 45°C/113°F or below -10°C/-14°F), as this may shorten the circuitry life, affect the operation or degrade the performance of your product
- Do not dispose of the product in a fire as it might result in an explosion
- Do not expose the product to sharp objects as this will cause scratches and damage
- Do not drop the product. This may cause damage to the internal circuitry
- Do not attempt to disassemble the product. This may cause damage to the internal circuitry

• Please do not use or store the unit in high temperature or hazardous locations

• Please do not submerge the unit into water, as this will ruin the product

• The warranty for this product is invalidated if the product has been tampered, repaired or modified in any way

• Do not drop, disassemble, open, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects into the Keyboard

• Do not use this Keyboard in rain or near washbasins, or other wet locations. Take care not to spill any food or liquid on this Keyboard. In case the Keyboard gets wet allow it to dry thoroughly before turning it on again. Do not attempt to dry the Keyboard with an external heat source, such as microwave oven or hair dryer. The Keyboard that has been damaged as a result of exposure to liquids is not serviceable.

• Never attempt to repair or modify the Keyboard by yourself, disassembling it may cause damage that is not covered under the warranty. If the Keyboard has been submerged in water, punctured, or subjected to a severe fall, do not use it until you take it to the service provider.

COMPATIBILITY

The Keyboard is Windows™ and macOS® compatible. LED indicator glows Red when connection is established. Check your device user manuals to ensure proper compatibility.

Quiet and comfortable full-size keyboard.
Low profile 96 keys design.
Long-range 2.4GHz wireless connection.
No pairing required, Plug and Play via USB Micro receiver.

FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.

Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
