Re: Willow Innovations breast pump, model number L01 (FCC ID 2AHRJ-L01)

To whom it may concern:

Per CFR 47 §1.1307(b)(3)(i)(A) devices with a maximum time-averaged power of less than 1 mW are exempt from the requirement to show data demonstrating compliance to RF exposure limits.

The Bluetooth radio of the Willow Innovations breast pump, model number L01 (FCC ID 2AHRJ-L01) has a maximum time-averaged power of -10 dBm (100  $\mu$ W). It is therefore exempt from the requirement to show compliance to the RF exposure limits.

A handwritten signature in black ink, appearing to read 'Dave Weaver', with a long horizontal line extending to the right.

Dave Weaver – Operations Leader, UL Verification Services.
