

# Beam Overview

## Charging Light

Shows battery level while charging

## Power Light

On/Off and battery level indicator

## Wi-Fi Light

When this light stops flashing you can connect your device

## Charging Port

Use the included cable to charge your Beam

## Power Button

**Power On:** Press and hold for 3 seconds until Power Light turns on

**Power Off:** Press and hold for 3 seconds until Power Light turns off

## Battery Level:

Quickly press power button to view battery level

## GoChip Channel

GoChips magnetically snap in place

## Password Label

Shows the Wi-Fi Network name (GoChip...) and a password for connecting to the Beam from your mobile device

## Reset Button

Reset to factory settings with end of paper clip. See [gochip.com](http://gochip.com) for details

## Battery level colors

 >90% charge

 10–90% charge

 <10% charge

# Getting Started

## Download app

Visit [gochip.com/apps](http://gochip.com/apps) on your phone, tablet or PC to download the GoChip Player app, then create an account and log in.

## Power on Beam

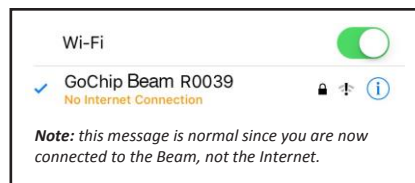

Press and hold the power button for 3 seconds until the right light turns on. You can connect when the Wi-Fi light stops flashing.

## Connect your device

On your mobile device, open **Settings > Wi-Fi** to connect to the GoChip Beam (see label on your Beam for network name and password), then wait for an indication that your device is connected.

**Please note:** when you connect to your Beam, your device may let you know that you are no longer connected to the Internet. **This is expected behavior** because you are now connected to the Beam and not to the Internet—giving you access to all your movies & TV shows without Internet access or downloading.

## Just Play!

Start the GoChip Player App and enjoy your movies and TV shows. You can connect up to 8 devices at the same: each person playing what they want, when they want. You provide the popcorn, we provide the fun.

## Power off Beam

Press and hold the power button 3 seconds until the power light turns off.

# FCC and IC Notice

## Federal Communications Commission (FCC) Statement

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:**

- 1) this device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

## Canada, Industry Canada (IC) Notices

"This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

## (IC French Notices )

### Canada, avis d'Industry Canada (IC)

"Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux

appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

## SAR FCC RF Radiation Exposure Statement:

### Federal Communication Commission (FCC) Radiation Exposure Statement

This EUT is compliance with SAR for general population/uncontrolled exposure limits in ANSI/IEEE C95.1-1999 and had been tested in accordance with the measurement methods and procedures specified in OET Bulletin 65 Supplement C.

## SAR IC RF Radiation Exposure Statement:

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations: Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.
